

# ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

## 222 REMINGTON MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 222 REMINGTON MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

# ULTRA™ MICROMETER SEATER DIES USER SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This product is designed to provide you with superior performance in reloading ammunition. To ensure your safety and the effective use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always ensure that you are using the product in a wellventilated area.
- Keep the dies out of reach of children and pets to prevent accidents.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the seater dies.
- Regularly inspect your dies for any signs of wear or damage before use.
- Follow all manufacturer instructions carefully to avoid misuse.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper handling can lead to injury.
- Misalignment during use may cause misfires or inconsistent bullet seating.

- **Avoiding Hazards:**

- Ensure that the die is correctly installed in the reloading press before use.
- Do not exceed the recommended bullet seating depth adjustments.
- Always keep your hands and other body parts clear of moving parts during operation.

- **AgeSpecific Warnings:**

- This product is intended for adult use only. Ensure that individuals under the age of 18 are supervised when engaged in reloading activities.

## Instructions for Installation and Usage

- **Installation:**

1. Ensure that your reloading press is securely mounted and stable.
2. Carefully screw the ULTRA™ MICROMETER SEATER DIE into the reloading press.
3. Tighten the Forster Cross Bolt Die Locking Ring to secure the die in place without damaging the threads.

- **Usage:**

1. Set the micrometer adjustment to the desired bullet seating depth. Adjust in increments of .0005 inch to .001 inch as needed.
2. Place a cartridge case in the press and insert the bullet into the case mouth.
3. Pull the press handle to seat the bullet to the specified depth.
4. Check the seating depth with a caliper to ensure accuracy.
5. Repeat the process for additional cartridges, adjusting as necessary.

## Disposal Instructions

- Dispose of any packaging materials responsibly by following local recycling guidelines.
- If the dies become damaged beyond repair, dispose of them in accordance with local hazardous waste regulations to prevent environmental harm.

## Contact Information for Further Support

For further inquiries regarding safety or product support, please refer to the manufacturer's website or contact your local distributor for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your ULTRA™ MICROMETER SEATER DIES. Thank you for prioritizing safety in your reloading practices.
