

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

6.5X55MM SWEDE MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 6.5X55MM SWEDE MICROMETER SEATER DIE](#)

ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instruction Guide

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your reloading dies. Please read this manual carefully and keep it for future reference.

General Safety Guidelines

To ensure your safety and the safety of others, please adhere to the following general safety guidelines:

- Always handle reloading equipment with care and respect.
- Store dies and reloading components in a secure location, out of reach of children and unauthorized individuals.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using reloading dies.
- Be aware of your surroundings and ensure that you are working in a wellventilated area.
- Follow all local laws and regulations regarding reloading and ammunition manufacturing.
- Regularly inspect your reloading dies for signs of wear or damage before each use.

Specific Safety Precautions for Use

When using the ULTRA™ MICROMETER SEATER DIES, please observe the following specific safety precautions:

- Ensure that the die is properly installed in your reloading press before use.
- Use only compatible cartridges as specified in the product description (e.g., 6.5 x 55 mm Swedish Mauser).
- Do not exceed the recommended bullet seating depth adjustments.
- Always verify that the micrometer adjustment is secure before starting the reloading process.
- Avoid distractions while operating reloading equipment; focus on the task at hand.
- If you experience any malfunctions or unusual behavior during use, stop immediately and inspect the equipment.

Instructions for Installation and Usage

Follow these steps to properly install and use your ULTRA™ MICROMETER SEATER DIES:

1. Installation:

- Ensure that your reloading press is on a stable surface and securely mounted.
- Remove any existing dies from the press, if applicable.
- Insert the ULTRA™ MICROMETER SEATER DIE into the press and tighten it securely using the Forster Cross Bolt Die Locking Ring.
- Adjust the die to the desired height for bullet seating.

2. Bullet Seating:

- Select the appropriate bullet for your cartridge.
- Place the bullet into the case mouth, ensuring it is aligned properly.
- Use the micrometer adjustment to set the desired bullet seating depth. Adjust in increments of .0005 inch to .001 inch as needed.

- Pull the handle of the press to seat the bullet firmly in the case.
- Repeat the process for additional cartridges, adjusting the micrometer as necessary.

3. PostUse:

- After use, clean the die to remove any residue or debris.
- Store the die in a safe location, ensuring it is protected from damage.

Disposal Instructions

When disposing of reloading dies or components, follow these guidelines:

- Check local regulations regarding the disposal of metal and reloading components.
- Dispose of any damaged or worn dies in accordance with local waste management guidelines.
- Recycle materials whenever possible to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or support regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the manufacturer's contact information provided with your product packaging or on the official website.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and stay informed about best practices in reloading. Thank you for choosing Forster Products, Inc.
