

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

270 WINCHESTER MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 270 WINCHESTER MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

Safety Instruction Guide for ULTRA™ MICROMETER SEATER DIES

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This guide provides essential safety instructions to ensure the safe use of this product. It is important to read and understand these guidelines before using the dies to avoid potential hazards.

General Safety Guidelines

- Always handle reloading dies with care to prevent injury.
- Ensure you are familiar with the reloading process and equipment before use.
- Store dies in a secure location, out of reach of children and vulnerable individuals.
- Regularly inspect dies for signs of wear or damage before each use.
- Follow all manufacturer instructions for use and maintenance.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay updated on product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading equipment.
- Ensure that your workspace is clean and free of clutter to minimize the risk of accidents.
- Do not exceed the recommended specifications for your reloading dies.
- Be cautious of sharp edges on the dies; handle with care to avoid cuts.
- Avoid distractions while reloading to maintain focus and ensure safety.
- Keep all components organized and securely stored when not in use.

Instructions for Installation and Usage

1. Preparation:

- Ensure you have all necessary tools and components before starting.
- Read the user manual for your reloading press to understand compatibility with the ULTRA™ MICROMETER SEATER DIES.

2. Installation:

- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Tighten the Forster Cross Bolt Die Locking Ring to ensure a stable setup.

3. Adjusting Bullet Seating Depth:

- Use the micrometer adjustment to set the desired bullet seating depth.
- Adjust in increments of .0005 inch to .001 inch as needed.
- Record your settings for future reference.

4. Reloading Process:

- Follow standard reloading procedures, ensuring all components are compatible.
- Monitor the reloading process closely, making adjustments as necessary.

5. PostUse:

- Clean the dies after use to maintain their condition and performance.
- Store the dies in a safe and dry location.

Disposal Instructions

- Dispose of any damaged or wornout reloading dies in accordance with local regulations.
- Do not throw away dies in regular trash; check for recycling options or hazardous waste disposal facilities.

Contact Information for Further Support

For any questions or concerns regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the manufacturer's contact information provided with your product packaging. Ensure you have the necessary details for a prompt response.

By following these guidelines, you can ensure a safe and effective reloading experience with your ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and stay informed about best practices in reloading.
