

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

7MM-08 REMINGTON MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 7MM-08 REMINGTON MICROMETER SEATER DIE](#)

ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. These reloading dies are designed for precision and reliability. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide carefully.

General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Keep the dies and all reloading components out of reach of children and unauthorized individuals.
- Use the dies only for their intended purpose: to seat bullets in reloading operations.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading.
- Be aware of your surroundings and ensure you are in a safe environment while using reloading equipment.
- Regularly inspect your equipment for wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the reloading press is securely mounted and stable before use.
- Use only compatible cartridges with the ULTRA™ MICROMETER SEATER DIES.
- Follow the manufacturer's instructions for the specific reloading process.
- Avoid overtightening the die to prevent damage and ensure proper operation.
- Do not modify the die or use it for purposes other than bullet seating.
- Store the dies in a dry, cool place to prevent rust and degradation.
- Use caution when adjusting the micrometer settings to avoid accidental misalignment.
- Keep work areas clean and organized to prevent accidents.

Instructions for Installation and Usage

1. Installation:

- Securely mount your reloading press according to the manufacturer's instructions.
- Insert the ULTRA™ MICROMETER SEATER DIE into the press and tighten it using the Forster Cross Bolt Die Locking Ring.
- Ensure that the die is aligned properly to avoid misalignment during use.

2. Usage:

- Set the micrometer adjustment to the desired bullet seating depth, adjusting in increments of .0005 inch to .001 inch.
- Place the cartridge case in the shell holder of the press.
- Insert the bullet into the case mouth and raise the ram of the press to seat the bullet.
- After seating, lower the ram and inspect the seated bullet for proper depth.
- If necessary, readjust the micrometer and repeat the process until the desired seating depth is achieved.

Disposal Instructions

- Dispose of any damaged or worn reloading dies in accordance with local regulations.
- Do not dispose of reloading components in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or assistance, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective reloading experience with the ULTRA™ MICROMETER SEATER DIES. Thank you for your attention to safety, and happy reloading!
