

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

300 REMINGTON MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 300 REMINGTON MICROMETER SEATER DIE](#)

ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This guide provides essential safety instructions to ensure safe and effective use of your reloading dies. Please read this manual carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always keep the dies out of reach of children and vulnerable individuals.
- Inspect the dies for any signs of damage or wear before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when reloading.
- Store the dies in a dry, secure location to prevent accidental damage or misuse.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Do not exceed the manufacturer's recommended specifications for reloading.
- Always use the correct cartridge for the die to avoid malfunction or injury.
- Make sure the work area is welllit and free from distractions.
- Keep your hands and other body parts clear of moving parts during operation.
- If you experience any difficulties or unusual behavior while using the dies, stop using them immediately and consult the manufacturer.

Instructions for Installation and Usage

1. Installation:

- Clean the die and the reloading press before installation.
- Securely mount the die into the reloading press according to the manufacturer's instructions.
- Ensure that the Forster Cross Bolt Die Locking Ring is properly tightened to prevent movement during use.

2. Usage:

- Set the micrometer adjustment to the desired bullet seating depth.
- Insert the bullet into the die and ensure it is properly aligned.
- Operate the reloading press smoothly and steadily to seat the bullet.
- After use, clean the dies to remove any residue or debris.

Disposal Instructions

- Dispose of any unused or damaged reloading components according to local waste disposal regulations.
- Do not throw away the dies in regular household waste. Contact your local waste management service for guidance on proper disposal methods.

Contact Information for Further Support

For further assistance or safety inquiries, please refer to the manufacturer's website or contact their customer

service department. Always ensure you have the product details on hand for a more efficient response.

By following these safety instructions, you can ensure a safer reloading experience with the ULTRA™ MICROMETER SEATER DIES.
