## 300 WINCHESTER MAGNUM MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 300 WINCHESTER MAGNUM MICROMETER SEATER DIE](#)

# ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This product is designed to assist you in reloading ammunition safely and efficiently. It is essential to understand the safety guidelines and instructions to ensure a safe and effective reloading experience.

## General Safety Guidelines

- Ensure that you read and understand all instructions before using the product.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, while reloading.
- Keep the reloading area clean and organized to prevent accidents.
- Store reloading dies and components in a safe place, out of reach of children and unauthorized users.
- Regularly inspect your reloading equipment for signs of wear or damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the ULTRA™ MICROMETER SEATER DIES only for the intended purpose of bullet seating for .300 Winchester Magnum cartridges.
- Avoid using excessive force when adjusting the micrometer settings to prevent damage to the die.
- Ensure that the die is properly secured in the reloading press before use.
- Do not attempt to modify or alter the die in any way.
- Be cautious of hot surfaces during and after the reloading process.
- Always keep your hands and face clear of the die and reloading press during operation.

## Instructions for Installation and Usage

### 1. Installation

- Ensure your reloading press is compatible with the ULTRA™ MICROMETER SEATER DIES.
- Carefully remove the die from its packaging.
- Secure the die in the reloading press by tightening the Forster Cross Bolt Die Locking Ring.
- Doublecheck that the die is firmly in place before proceeding.

### 2. Usage

- Set the micrometer adjustment to your desired bullet seating depth, adjusting in increments of .0005 inch to .001 inch.
- Insert the cartridge case into the shell holder of the reloading press.
- Place the bullet on top of the cartridge case and lower the press handle to seat the bullet.
- Check the seating depth after each adjustment to ensure accuracy.
- Record your settings for future reference and easy adjustments.

## Disposal Instructions

- Dispose of any unused or damaged reloading components in accordance with local regulations.
- Do not dispose of reloading dies in regular household waste.
- Check with local authorities for specific disposal guidelines for hazardous materials.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the product packaging for contact information specific to your region. Always ensure that you are reaching out to an authorized service provider for assistance.

Thank you for prioritizing safety while using the ULTRA™ MICROMETER SEATER DIES. Your adherence to these guidelines will help ensure a safe and enjoyable reloading experience.
