

# ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

## 300 WSM MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 300 WSM MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749006841

# ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This guide provides essential safety information and instructions for the proper use of your reloading dies to ensure safe and effective operation. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before use.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep your workspace clean and organized to prevent accidents.
- Store all reloading components, including dies, in a safe and secure location away from children and pets.
- Follow local laws and regulations regarding ammunition reloading and storage.
- Regularly inspect your dies for wear or damage, and replace them if necessary.
- Be aware of potential hazards associated with reloading, including the handling of gunpowder and primers.

## Specific Safety Precautions for Use

- Do not exceed the recommended load data provided by the bullet and powder manufacturers.
- Only use the ULTRA™ MICROMETER SEATER DIES with compatible cartridges (300 WSM).
- Ensure that the die is properly secured in the reloading press before use.
- Avoid distractions while reloading to maintain focus.
- Do not attempt to modify or disassemble the die beyond its intended use.
- Keep fingers and hands clear of moving parts during operation.
- Always doublecheck your settings before starting the reloading process.

## Instructions for Installation and Usage

### 1. Installation of the Die

- Ensure that the reloading press is turned off and unplugged.
- Remove any existing die from the press.
- Carefully screw the ULTRA™ MICROMETER SEATER DIE into the press until it is snug. Do not overtighten.
- Attach the Forster Cross Bolt Die Locking Ring by tightening the split ring ends to secure the die.

### 2. Setting Up for Reloading

- Place the appropriate shell holder in the press.
- Insert a clean, deprimed case into the shell holder.
- Adjust the micrometer setting to the desired bullet seating depth. The adjustment range is from .0005 inch to .001 inch increments.
- Ensure the bullet is seated properly by checking the depth against your specifications.

### 3. Reloading Process

- Place a bullet on the case mouth.
- Pull the press handle to seat the bullet. Ensure that the die is functioning smoothly throughout the process.

- After seating, check the bullet depth to verify accuracy.
- Repeat the process for additional rounds, adjusting the micrometer as necessary for different bullet types.

#### 4. PostUse Care

- Clean the die after each use to remove any residue or debris.
- Store the die in a safe and dry location to prevent rust and damage.

## Disposal Instructions

- Dispose of any damaged or worn reloading dies according to local regulations.
- Do not throw away dies in regular household waste. Check for local recycling programs that accept metal components.
- Ensure that any hazardous materials, such as gunpowder or primers, are disposed of in compliance with safety regulations.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the contact information provided with your purchase. You can also check the EU's Safety Gate platform for updates on product safety and recalls.

Please remember that safety is paramount when reloading ammunition. By following these guidelines and instructions, you can help ensure a safe and successful reloading experience. Thank you for your attention to safety and for choosing Forster Products, Inc.
