

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC. 375 H&H MAGNUM MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 375 H&H MAGNUM MICROMETER SEATER DIE](#)

ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This guide provides essential safety instructions to ensure the safe and effective use of your reloading dies. Please read and follow these guidelines carefully to avoid potential hazards and ensure optimal performance.

General Safety Guidelines

- Always use the reloading dies in accordance with the manufacturer's instructions.
- Ensure that your work area is clean, welllit, and free from distractions.
- Keep reloading materials and tools out of reach of children and unauthorized personnel.
- Wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Store the dies in a secure location when not in use to prevent accidental damage or misuse.
- Regularly inspect the dies for wear or damage before use. Do not use damaged equipment.

Specific Safety Precautions for Use

- Be aware of the specific cartridge type you are reloading (375 H&H Magnum) and ensure compatibility with your dies.
- Always check that the micrometer adjustment is securely set before beginning the reloading process.
- Avoid overtightening the locking ring, as this may damage the die or affect its performance.
- Use caution when handling bullets and reloading components to prevent injury.
- Follow all applicable laws and regulations regarding reloading and ammunition in your jurisdiction.

Instructions for Installation and Usage

Installation

1. **Select the appropriate die** for the cartridge you are reloading (375 H&H Magnum).
2. **Secure the die** in your reloading press according to the manufacturer's instructions.
3. **Adjust the Forster Cross Bolt Die Locking Ring** to ensure a tight fit without overtightening.
4. **Calibrate the micrometer adjustment** by setting it to your desired bullet seating depth.

Usage

1. **Prepare your workspace** to ensure safety and efficiency.
2. **Insert the bullet** into the die and align it with the seating stem.
3. **Adjust the micrometer** to the desired seating depth, making sure to record the setting for future use.
4. **Perform a test seating** to confirm the bullet depth is accurate. Adjust as necessary.
5. **Reload the remaining cartridges**, following the same procedure for consistency.

Disposal Instructions

- Dispose of any unused reloading materials and components in accordance with local regulations.
- If the dies become damaged beyond repair, contact your local waste management authority for proper disposal methods.
- Always recycle materials when possible to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the contact information provided by the retailer or manufacturer. It is important to have access to support for any safety or operational inquiries.

Conclusion

By following these safety instructions, you will ensure a safe and effective reloading experience with your ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and adhere to best practices while reloading. Thank you for choosing Forster Products, Inc. for your reloading needs.
