## 30-378 WEATHERBY MAGNUM MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 30-378 WEATHERBY MAGNUM MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)

# ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual thoroughly before use.

## General Safety Guidelines

- Ensure the die is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the work area clean and free of distractions.
- Store the dies in a secure location away from children and unauthorized users.
- Regularly inspect the dies for signs of wear or damage.

## Specific Safety Precautions for Use

- Handle all reloading components with care to avoid accidental discharge.
- Ensure that the micrometer adjustment is securely set before use to prevent misalignment.
- Do not exceed the recommended bullet seating depth to avoid dangerous pressure levels.
- Use only compatible cartridges with the ULTRA™ MICROMETER SEATER DIES.
- Follow proper reloading practices and guidelines as outlined by reputable reloading manuals.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is compatible with the ULTRA™ MICROMETER SEATER DIES.
- Securely attach the die to the reloading press following the manufacturer's instructions.
- Adjust the Forster Cross Bolt Die Locking Ring to ensure the die is firmly in place.

### 2. Usage:

- Set the desired bullet seating depth using the micrometer adjustment.
- Insert the bullet into the case mouth and position it under the die.
- Activate the reloading press to seat the bullet to the specified depth.
- After reloading, check the dimensions of the rounds to ensure consistency and safety.

## Disposal Instructions

- Dispose of any unused or damaged reloading components in accordance with local regulations.
- Ensure that all materials are disposed of safely to prevent environmental contamination.

## Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product packaging. Always ensure you have the most current contact details for assistance.

## Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and refer to this guide whenever necessary. Thank you for your attention to safety and for choosing Forster Products, Inc.
