## 6.5MM GRENDEL MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

### Attributes

- Name: [FORSTER PRODUCTS, INC. 6.5MM GRENDEL MICROMETER SEATER DIE](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749006852

# ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instructions Guide

## Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This guide provides essential safety instructions to ensure the safe and effective use of your reloading dies. Adhering to these guidelines will help prevent accidents and ensure a positive reloading experience.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before use.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading ammunition.
- Keep your workspace clean and organized to minimize hazards.
- Store reloading components, including dies and ammunition, in a secure location away from children and unauthorized individuals.
- Regularly inspect your reloading equipment for any signs of wear or damage.

## Specific Safety Precautions for Use

### • Hazard Identification:

- The dies are designed for precision reloading; improper use may result in ammunition that does not perform safely.
- Ensure that the micrometer adjustment is set correctly to avoid overseating bullets.
- Handle all components, including bullets and powder, with care to prevent accidental discharge.

### • Avoiding Hazards:

- Always follow the manufacturer's instructions for your specific die.
- Do not exceed recommended load limits or use components not specified for your die.
- Keep hands and tools clear of moving parts during operation.

### • Age Specific Warnings:

- This product is intended for use by individuals aged 18 and older. Ensure that minors are supervised by an adult at all times when using reloading equipment.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die in the reloading press according to the manufacturer's instructions.
- Ensure that the die is properly aligned and tightened to avoid movement during use.

### 2. Usage:

- Adjust the micrometer for bullet seating depth according to your specifications.
- Carefully insert the bullet into the case and operate the press smoothly to seat the bullet.
- After use, clean the dies to prevent residue buildup, which can affect performance.

### 3. PostUsage:

- Store the dies in a dry, cool place, and ensure they are protected from rust and damage.
- Regularly check the micrometer settings and recalibrate as necessary.

## Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Follow proper procedures for disposing of reloading components, including spent cartridges and unused powders, to minimize environmental impact.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the ULTRA™ MICROMETER SEATER DIES, please reach out to the designated EU contact point provided with your product documentation.

## Conclusion

Following these safety instructions will help ensure a safe and effective reloading experience with your ULTRA™ MICROMETER SEATER DIES. Always prioritize safety and remain informed about best practices in reloading. Thank you for choosing Forster Products, Inc.
