

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

338 LAPUA MAGNUM MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This product is designed for precision reloading of 338 Lapua Magnum cartridges. To ensure safe and effective use, please read this safety instruction guide carefully. It outlines important safety guidelines, precautions, and instructions for installation and usage in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure you are familiar with the operation of reloading equipment before using this product.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading dies.
- Keep the work area clean and organized to minimize the risk of accidents.
- Store the product in a dry, secure location away from children and pets.
- Regularly inspect the dies for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to local authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended specifications for the 338 Lapua Magnum cartridge.
- Always ensure that the micrometer adjustment is securely set before starting the reloading process.
- Avoid using the dies for any purpose other than intended (bullet seating).
- Keep hands and clothing clear of moving parts during operation.
- Do not attempt to modify or disassemble the dies as this may compromise their safety and performance.
- Ensure that the reloading press is stable and securely fastened during use.

Instructions for Installation and Usage

Installation

1. **Prepare the Reloading Press:** Ensure that your reloading press is clean and properly set up according to the manufacturer's instructions.
2. **Insert the Die:**
 - Loosen the Forster Cross Bolt Die Locking Ring.
 - Carefully screw the ULTRA™ MICROMETER SEATER DIE into the press until it is snug.
 - Tighten the locking ring to secure the die in place.
3. **Set Micrometer Adjustment:**
 - Adjust the micrometer to your desired bullet seating depth by turning the adjustment knob.
 - Ensure that the setting is within the range of .0005 inch to .001 inch increments.

Usage

1. **Prepare the Cartridge Case:** Ensure that the cartridge case is clean and properly sized for reloading.
2. **Insert the Bullet:** Place the bullet into the cartridge case.
3. **Seat the Bullet:**
 - Raise the ram of the reloading press to seat the bullet.
 - Lower the ram to complete the seating process.
4. **Check the Seating Depth:** Measure the bullet seating depth using a caliper to ensure it meets your specifications.
5. **Repeat:** Repeat the process for additional cartridges as needed.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact local waste management authorities for guidance on the safe disposal of hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the product packaging for contact information or consult the manufacturer's website for further assistance.
