

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

308 WINCHESTER MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

ULTRA™ MICROMETER SEATER DIES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES from Forster Products, Inc. This product is designed for precision reloading of 308 Winchester cartridges. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- **Product Safety:** Always ensure the safe use of the ULTRA™ MICROMETER SEATER DIES. Follow all instructions to mitigate risks associated with reloading.
- **Enhanced Recalls:** Stay informed about any product recalls. If notified, follow the instructions provided for safe returns or remedies.
- **Online Shopping Protections:** If purchased online, ensure the platform complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of their reach.
- **EU Contact Point:** For safety inquiries, please refer to the appropriate EU contact point.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on unsafe products.

Specific Safety Precautions for Use

- **Read Instructions:** Always read and understand the instructions before using the product.
- **Protective Gear:** Wear appropriate protective gear, including safety glasses and gloves, when reloading.
- **Work Area:** Ensure your work area is clean, welllit, and free from distractions.
- **Proper Storage:** Store the dies in a safe, dry place when not in use to prevent damage and ensure longevity.
- **Inspect Regularly:** Regularly inspect the dies for any signs of wear or damage before each use.
- **Correct Use:** Use the dies only for their intended purpose as described in the product manual.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is compatible with the ULTRA™ MICROMETER SEATER DIES.
- Securely mount the die in the reloading press according to the press's instructions.

2. Adjusting the Die:

- Use the micrometer adjustment feature to set the desired bullet seating depth.
- Adjust in increments of .0005 inch to .001 inch for precise control.

3. Reloading Process:

- Begin by ensuring that your workspace is organized and all necessary materials are at hand.
- Follow standard reloading practices, ensuring that each round is seated to the desired depth.
- Maintain focus and avoid distractions during the reloading process.

4. PostUse Care:

- Clean the dies after use to remove any residue or debris.
- Store the dies properly to prevent damage.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product becomes unusable, follow your local guidelines for the disposal of metal and plastic components.

Contact Information for Further Support

For further support regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the appropriate contact channels provided by the retailer or manufacturer.

By following these safety instructions, you can ensure a safe and effective reloading experience with the ULTRA™ MICROMETER SEATER DIES. Thank you for your attention to safety!
