

ULTRA™ MICROMETER SEATER DIES - FORSTER PRODUCTS, INC.

223 REMINGTON MICROMETER SEATER DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. The Forster Ultra Seater includes all of the features of the Forster Bench Rest Seater Die above, plus an ultra accurate micrometer adjustment. This micrometer adjustment allows you to adjust bullet seating depth from .0005 inch to .001 inch increments, and makes switching bullets easy - just dial back to your previous recorded setting. Forster Ultra Seaters make fine tuning your bullets to the lands of your rifling simple.

Attributes

- Name: [FORSTER PRODUCTS, INC. 223 REMINGTON MICROMETER SEATER DIE](#)

ULTRA™ MICROMETER SEATER DIES FORSTER PRODUCTS, INC. Safety Instruction Guide

Introduction

Thank you for choosing the ULTRA™ MICROMETER SEATER DIES by Forster Products, Inc. This guide provides essential safety instructions to ensure safe and effective use of your reloading dies. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Product Safety: Ensure safe use of the ULTRA™ MICROMETER SEATER DIES by following all instructions and safety precautions.
- Enhanced Recalls: Stay informed about any recalls by checking the EU's Safety Gate platform for updates.
- Online Shopping: If purchased online, ensure that the retailer complies with safety requirements.
- Special Consumer Focus: Extra care should be taken if the product is used by individuals who are inexperienced with reloading equipment.
- EU Contact Point: For any safety inquiries, please refer to the appropriate EU contact point provided by the retailer.
- Rapid Alerts: Be aware of the Safety Gate system for faster updates on unsafe products.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using reloading dies.
- Ensure that the reloading area is wellventilated and free from clutter.
- Keep the dies and all reloading components out of reach of children and pets.
- Do not attempt to modify the dies or use them for purposes other than intended.
- Regularly inspect the dies for wear or damage before each use.
- Follow the manufacturer's instructions for the proper setup and use of the dies.
- Use only compatible components and materials with the ULTRA™ MICROMETER SEATER DIES.

Instructions for Installation and Usage

1. Setup:

- Ensure that your reloading press is securely mounted and stable.
- Clean the die threads and the press threads to ensure a smooth fit.
- Screw the ULTRA™ MICROMETER SEATER DIE into the reloading press until snug, but do not overtighten.

2. Adjustment:

- Use the micrometer adjustment feature to set the desired bullet seating depth.
- To adjust, turn the micrometer dial to increase or decrease the seating depth in increments of .0005 inch to .001 inch.

3. Seating Bullets:

- Insert a cartridge case into the reloading press.
- Place a bullet on top of the cartridge case.
- Pull the press handle to seat the bullet into the case.
- Check the seating depth using a caliper to ensure accuracy.

4. Fine Tuning:

- If adjustments are needed, simply dial back to your previous recorded setting for quick changes between bullet types.

5. Cleaning:

- After use, clean the dies with a soft cloth to remove any residue.
- Store the dies in a dry place to prevent rust and damage.

Disposal Instructions

- Dispose of any damaged or wornout reloading dies in accordance with local regulations.
- Do not throw the dies in regular household waste. Check for local recycling programs or hazardous waste disposal sites.

Contact Information for Further Support

For any questions or concerns regarding the ULTRA™ MICROMETER SEATER DIES, please refer to the contact information provided by your retailer or manufacturer.

Thank you for following these safety guidelines. Your safety is our priority, and we wish you a successful reloading experience!
