

# **COMPETITION HANDGUN BULLET SEATER DIES - REDDING COMPETITION SEATER DIE 45 COLT, 454 CASULL**

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These seaters have a precision fitting bullet seating stem which is spring loaded. As the bullet and case move up into the seater positive alignment is insured. The micrometer adjustment on the seating stem simplifies setting and recording bullet seating depth. The micrometer is calibrated in .001 inch increments, is infinitely adjustable, and has a zero set feature. This seater has no crimping features. Crimping should be done with a separate Redding Profile Crimp or Taper Crimp die. The Competition seating die for the handgun and straight wall cases is compatible with most progressive reloading presses.

## **Attributes**

- Name: [REDDING COMPETITION SEATER DIE 45 COLT, 454 CASULL](#)

# Safety Instruction Guide for Redding Competition Handgun Seater Die

## Introduction

Thank you for choosing the Redding Competition Handgun Seater Die for your reloading needs. This guide provides essential safety information to ensure the safe and effective use of this product. Please read and follow these instructions carefully.

## General Safety Guidelines

- Ensure safe use of the product by following all safety instructions.
- Be aware of potential risks associated with reloading ammunition.
- Always wear appropriate safety gear, including eye protection and hearing protection.
- Keep the workspace clean and organized to prevent accidents.
- Store the die in a secure location away from children and pets.
- Regularly check for updates on product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use of the die can lead to misfires or unsafe ammunition.
- The die is designed for specific calibers (45 Colt and 454 Casull); using it for other calibers can be dangerous.

- **Avoiding Hazards:**

- Always ensure the die is securely attached to the reloading press before use.
- Do not exceed recommended bullet seating depths.
- Ensure that the seating stem is properly adjusted before starting the reloading process.
- Avoid distractions while reloading to maintain focus and safety.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your reloading press is clean and in good working condition.
- Secure the Redding Competition Handgun Seater Die into the press according to the manufacturer's instructions.
- Check that the die is properly aligned and tightened to prevent movement during use.

### 2. Usage:

- Prepare your cases and bullets according to standard reloading practices.
- Adjust the micrometer on the seating stem to the desired bullet seating depth.
- Insert the bullet into the case and raise it into the seater die.
- Apply steady pressure to the press handle to seat the bullet into the case.
- After seating, check the bullet depth using a caliper to ensure accuracy.
- Remove the completed cartridge from the press and inspect for any defects before storage.

## **Disposal Instructions**

- Dispose of any unused or defective components in accordance with local regulations.
- Do not dispose of ammunition in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website.

By following these safety instructions, you can help ensure a safe and successful reloading experience with the Redding Competition Handgun Seater Die. Thank you for your attention to safety!
