

# **COMPETITION HANDGUN BULLET SEATER DIES - REDDING COMPETITION SEATER DIE 44 SPECIAL/MAGNUM**

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These seaters have a precision fitting bullet seating stem which is spring loaded. As the bullet and case move up into the seater positive alignment is insured. The micrometer adjustment on the seating stem simplifies setting and recording bullet seating depth. The micrometer is calibrated in .001 inch increments, is infinitely adjustable, and has a zero set feature. This seater has no crimping features. Crimping should be done with a separate Redding Profile Crimp or Taper Crimp die. The Competition seating die for the handgun and straight wall cases is compatible with most progressive reloading presses.

## **Attributes**

# Competition Handgun Seater Die Safety Instructions

## Introduction

Thank you for choosing the Redding Competition Handgun Seater Die for your reloading needs. This product is designed to enhance your reloading experience while ensuring safety and precision. Please read this safety instruction guide carefully to understand how to use the seater die safely and effectively.

## General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading equipment and components.
- Keep your workspace clean and organized to prevent accidents and ensure efficient operation.
- Store all reloading components, including dies, in a safe and secure location, out of reach of children and pets.
- Follow all local laws and regulations regarding the reloading of ammunition.
- Be aware of your surroundings and ensure that no unauthorized persons are in your reloading area when you are working.
- Regularly inspect your reloading equipment for wear and damage. Replace any damaged components immediately.

## Specific Safety Precautions for Use

- Ensure that the seater die is compatible with the cartridges you are using (44 Magnum and 44 Special).
- Do not exceed the recommended bullet seating depth as specified in your reloading manual.
- Avoid using the seater die for crimping purposes. Use a separate Redding Profile Crimp or Taper Crimp die for crimping.
- Ensure that the bullet seating stem is properly adjusted before use to prevent misalignment.
- Do not attempt to modify the die or its components in any way, as this could lead to malfunction or injury.
- Keep hands and body clear of the die's moving parts during operation.

## Instructions for Installation and Usage

### 1. Installation:

- Securely mount the Redding Competition Handgun Seater Die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during operation.

### 2. Adjusting the Seater Die:

- Use the micrometer adjustment on the seating stem to set the desired bullet seating depth. The micrometer is calibrated in .001 inch increments for precision.
- After adjusting, lock the setting in place to maintain the desired depth during use.

### 3. Seating Bullets:

- Insert a cartridge case into the press and raise it to meet the seater die.
- Place a bullet on the case mouth and lower the press handle to seat the bullet. Ensure that the bullet aligns properly with the case.
- Inspect the seated bullet to ensure proper seating depth and alignment.

#### 4. Post Use:

- After use, clean the die to remove any debris or residue.
- Store the die in a safe location away from moisture and direct sunlight.

## Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Do not throw away reloading components in regular trash. Check with your local waste management for proper disposal methods.
- Ensure that all hazardous materials are disposed of in accordance with applicable safety regulations.

## Contact Information for Further Support

For any safety inquiries or support regarding the Redding Competition Handgun Seater Die, please refer to the manufacturer's contact information provided with the product packaging or visit their official website.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Competition Handgun Seater Die. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important guidelines.
