

# COMPETITION HANDGUN BULLET SEATER DIES - REDDING

## COMPETITION SEATER DIE 45 ACP

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These seater dies have a precision fitting bullet seating stem which is spring loaded. As the bullet and case move up into the seater positive alignment is insured. The micrometer adjustment on the seating stem simplifies setting and recording bullet seating depth. The micrometer is calibrated in .001 inch increments, is infinitely adjustable, and has a zero set feature. This seater has no crimping features. Crimping should be done with a separate Redding Profile Crimp or Taper Crimp die. The Competition seating die for the handgun and straight wall cases is compatible with most progressive reloading presses.

### Attributes

- Name: [REDDING COMPETITION SEATER DIE 45 ACP](#)

# Safety Instruction Guide for Redding Competition Handgun Seater Die 45 ACP

## Introduction

Thank you for choosing the Redding Competition Handgun Seater Die for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of the die. Please read this document carefully before use to understand the risks and precautions associated with this product.

## General Safety Guidelines

- Ensure safe handling and usage of the die to prevent accidents.
- Always follow safety practices while reloading ammunition.
- Keep the die and all reloading components out of reach of children and vulnerable individuals.
- Regularly check for product recalls or safety alerts through the EU Safety Gate platform.
- In case of any issues or concerns, report unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, while reloading.
- Ensure that your workspace is clean and free from distractions.
- Do not exceed recommended load limits for your ammunition.
- Avoid using the die if it appears damaged or malfunctioning.
- Never use the seater die for crimping; use a separate Redding Profile Crimp or Taper Crimp die for that purpose.
- Always doublecheck that the die is securely mounted to the reloading press before use.
- Follow the manufacturer's instructions for adjusting the micrometer setting to prevent misalignment.

## Instructions for Installation and Usage

### 1. Installation

- Ensure your reloading press is clean and properly set up.
- Select the appropriate die for your cartridge type (45 Auto (ACP), 45 G.A.P).
- Remove the die from its packaging and inspect it for any damage.
- Thread the die into the press and tighten it securely.
- Adjust the die height according to your reloading specifications.

### 2. Usage

- Insert the cartridge case into the shell holder on the press.
- Place a bullet on the case mouth.
- Pull the press handle to raise the case into the die.
- Adjust the micrometer on the seating stem to set the desired bullet seating depth.
- Continue to pull the handle until the bullet is seated correctly.
- After use, clean the die to maintain its condition and performance.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw the die in regular household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Redding Competition Handgun Seater Die, please refer to the manufacturer's website or contact their customer support for assistance. Ensure you have your product information ready when seeking help.

Thank you for prioritizing safety while using the Redding Competition Handgun Seater Die. Your careful attention to these guidelines will help maintain a safe reloading environment.
