

TYPE S BUSHING FULL DIES - REDDING 284 WINCHESTER BUSHING FULL LENGTH TYPE S DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Full Length resizing while maintaining exact control of the case neck is often desirable in one operation. The Redding Type S Bushing Full Length Sizing Dies accomplish this task with the precision you would expect from Redding. Uses the same interchangeable bushings as those used in Redding bushing style neck sizing dies. The adjustable decapping rod allows you to adjust the bushing position, sizing only part of the neck length when desired. Concentricity is enhanced by the ability of the bushing to self-center on the neck of the cartridge case. All Type S dies are supplied with both the standard size button and a decapping pin retainer. By removing the bushing and all internal parts, the Type S Bushing Full Die may also be used as a body die.

Safety Instruction Guide for TYPE S BUSHING FULL DIES REDDING 284 WINCHESTER BUSHING FULL LENGTH TYPE S DIE

Introduction

Thank you for choosing the TYPE S BUSHING FULL DIES REDDING 284 WINCHESTER BUSHING FULL LENGTH TYPE S DIE. This guide provides essential safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before using the die to avoid any potential hazards.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose as specified in the product description.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling or using the die.
- Keep the die and all related tools out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Use only the recommended bushings with the Type S Bushing Full Length Die to maintain optimal performance and safety.
- Ensure that the die is securely mounted in the reloading press before use to prevent accidents.
- Adjust the decapping rod carefully to avoid excessive force, which may lead to injury or damage to the die.
- When resizing cases, ensure that the cartridge case is clean and free of debris to avoid jamming and potential injury.
- Avoid wearing loose clothing or jewelry that may get caught in the reloading equipment.

Instructions for Installation and Usage

1. Installation:

- Securely attach the Type S Bushing Full Length Die to your reloading press according to the manufacturer's instructions.
- Ensure that the die is properly aligned and tightened to prevent movement during operation.

2. Using the Die:

- Insert a clean cartridge case into the die.
- Adjust the bushing position using the decapping rod as needed for your specific resizing requirements.
- Operate the reloading press smoothly and steadily to resize the case.
- After resizing, remove the case from the die and inspect for proper sizing.

3. Maintenance:

- Clean the die regularly to remove any residue or debris.
- Store the die in a dry place to prevent rust and damage.

Disposal Instructions

- Dispose of any damaged or worn parts of the die in accordance with local regulations.
- If the die is no longer usable, consider recycling components where possible to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the use of the TYPE S BUSHING FULL DIES REDDING 284 WINCHESTER BUSHING FULL LENGTH TYPE S DIE, please seek assistance from the retailer or manufacturer. Ensure you have the product details on hand for more efficient support.

Conclusion

Following these safety guidelines and instructions will help ensure a safe and effective reloading experience with your Type S Bushing Full Length Die. Always prioritize safety and compliance with local regulations when engaging in reloading activities. Thank you for your attention to these important safety measures.
