

# TYPE S BUSHING NECK DIES - TYPE S BUSHING NECK DIE 30 BR

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments. The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber. This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

## Attributes

- Name: [TYPE S BUSHING NECK DIE 30 BR](#)

# Safety Instruction Guide for TYPE S BUSHING NECK DIES TYPE S BUSHING NECK DIE 30 BR

## Introduction

Thank you for choosing the TYPE S BUSHING NECK DIE 30 BR. This product is designed to assist reloaders in achieving precise control over case neck size and tension. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this safety instruction guide.

## General Safety Guidelines

- Ensure that all nonfood products, including reloading equipment, are used safely.
- Be aware of risks not covered by other regulations and take necessary precautions.
- If shopping online, ensure that the platform meets safety requirements equivalent to those of physical stores.
- Extra care should be taken to protect vulnerable groups, such as children, from access to this product.
- For any safety inquiries, refer to the designated EU contact point for assistance.
- Stay informed about product safety by checking for updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using reloading equipment.
- Do not exceed the manufacturer's recommended specifications for case neck sizing.
- Keep the work area clean and free of clutter to prevent accidents.
- Ensure that the die is securely mounted before use to avoid injury.
- Avoid using the die with damaged or worn components.
- Store the die in a safe place, out of reach of children and pets.
- Always read and understand the instructions before using the die.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the reloading press is turned off and unplugged.
- Select the appropriate sizing bushing based on your desired neck size.
- Insert the bushing into the die and secure it in place.
- Adjust the decapping rod to the desired position for neck resizing.
- Securely mount the die onto the reloading press.

### 2. Usage:

- Prepare the cases to be resized by cleaning them thoroughly.
- Insert a case into the die and ensure it is properly aligned.
- Apply a steady force to the press handle to resize the case neck.
- If needed, adjust the decapping rod to resize only a portion of the neck length.
- After resizing, remove the case and inspect it for any defects.
- Clean the die after use to maintain its performance and longevity.

## Disposal Instructions

- Dispose of any unused or damaged components according to local regulations.
- Do not dispose of the product in regular household waste.

- Check with local authorities for proper disposal methods for reloading equipment.

## **Contact Information for Further Support**

For further assistance or inquiries regarding safety and usage, please refer to the designated EU contact point. Ensure that you have the product information on hand when seeking support.

Thank you for taking the time to read and understand these safety instructions. Your safety and satisfaction are our top priorities.
