

# TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 20 PPC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments. The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber. This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

## Attributes

- Name: [REDDING TYPE S BUSHING NECK DIE 20 PPC](#)

# Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 20 PPC

## Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES by Redding. This product is designed to assist reloaders in precisely controlling case neck size and tension. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Be aware of potential risks associated with reloading equipment and practices.
- Use the product only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for product recalls and safety updates on the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Inspect the die for any damage before use. Do not use if damaged.
- Be cautious when handling brass and reloading components, as sharp edges may exist.
- Ensure that the workspace is clean and free of obstructions to avoid accidents.
- Do not exceed the recommended specifications for your reloading materials.

## Instructions for Installation and Usage

### 1. Installation of the Die:

- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is properly aligned with the press to avoid misalignment during operation.

### 2. Setting Up the Bushing:

- Select the appropriate sizing bushing based on the desired neck size.
- Insert the sizing bushing into the die, ensuring a snug fit.

### 3. Adjusting the Decapping Rod:

- Adjust the decapping rod to the desired position for neck resizing.
- Ensure the rod is securely fastened to prevent movement during operation.

### 4. Reloading Process:

- Place the brass case into the reloading press.
- Operate the press to resize the neck of the case as desired.
- Monitor the process closely to ensure consistent results.

### 5. PostUse Care:

- Carefully clean the die and bushing after use to prevent corrosion and maintain performance.

- Store the die in a safe, dry location when not in use.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle brass cases and other materials whenever possible to minimize environmental impact.

## **Contact Information for Further Support**

For any inquiries or additional support regarding the TYPE S BUSHING NECK DIES, please refer to the contact information provided with your product packaging or visit the manufacturer's website for assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIES by Redding. Thank you for your attention to safety.
