

TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 284 WIN

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 284 WIN

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES by Redding. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the entire guide carefully before using the die.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses, when reloading ammunition.
- Keep the workspace clean and organized to avoid accidents.
- Store the die in a dry, secure place when not in use to prevent damage and ensure safety.
- Ensure that all tools and components used in the reloading process are in good condition and free from defects.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Ensure the die is compatible with the specific caliber (284 Winchester) before use.
- Do not exceed the manufacturer's recommended load specifications.
- Use only the correct sizing bushings as specified for this die to avoid malfunctions.
- Be cautious when adjusting the decapping rod to prevent injury.
- Always check for proper alignment of the die and case before starting the reloading process.

Instructions for Installation and Usage

1. Installation

- Securely mount the die into the reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during use.

2. Using the Die

- Select the appropriate sizing bushing based on your desired neck tension.
- Adjust the decapping rod to the desired position, ensuring it is securely fastened.
- Insert the case into the die and apply steady pressure to resize the neck.
- If necessary, adjust the bushing to resize only a portion of the neck length.

3. Decapping

- Utilize the standard size button for decapping commercial brass.
- For neck sizing without the size button, use the supplied decapping pin retainer.

4. PostUse Care

- After use, clean the die and remove any debris to maintain functionality.
- Store the die and bushings in their designated protective case.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not throw away in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any safety inquiries or support regarding the TYPE S BUSHING NECK DIES, please refer to the manufacturer's contact details provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIES. Always prioritize safety and refer to this guide whenever necessary. Thank you for your attention, and happy reloading!
