

TYPE S BUSHING NECK DIES - REDDING TYPE S BUSHING NECK DIE 338 LAPUA MAG

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Type S Bushing Neck Die provides reloaders with a simple means to precisely control case neck size and tension. Uses interchangeable sizing bushing available in .001" increments The adjustable decapping rod allows positioning the bushing to resize only a portion of the neck length if desired. Concentricity is enhanced by the ability of the resizing bushing to self-center on the case neck. The decapping rod is supplied with a standard size button. This is especially useful for reloaders who are using commercial brass as is. A decapping pin retainer is also supplied with most Type S Bushing Dies except 17 and 20 Caliber This enables neck sizing without the use of the size button for those who sort and/or turn case necks for uniformity.

Safety Instruction Guide for TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 338 LAPUA MAG

Introduction

Thank you for choosing the TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 338 LAPUA MAG. This product is designed to provide reloaders with precise control over case neck size and tension. It is important to follow safety guidelines to ensure safe and effective use of this product.

General Safety Guidelines

- Always read and understand the product instructions before use.
- Keep this product out of reach of children and vulnerable individuals.
- Ensure that the workspace is clean, dry, and welllit.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while handling.
- Check for any visible damage or defects before use. Do not use if damaged.
- Store the product in a safe and secure location when not in use.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Ensure that the sizing bushing is properly installed before resizing cases.
- Do not exceed the recommended maximum size for the bushing.
- Be cautious when adjusting the decapping rod; ensure it is securely fastened after adjustments.
- Avoid using the die with cases that show signs of excessive wear or damage.
- Use the decapping pin retainer only as intended; do not modify it.
- Always resize cases in a wellventilated area to avoid inhalation of any dust or particles.
- Keep hands and body clear of moving parts during operation.

Instructions for Installation and Usage

1. Installation of the Die:

- Securely mount the die in the reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened adequately to prevent movement during operation.

2. Using the Sizing Bushing:

- Select the appropriate sizing bushing based on the desired neck size.
- Insert the sizing bushing into the die and ensure it is seated properly.
- Adjust the decapping rod to the desired height, ensuring it is locked in position.

3. Resizing Cases:

- Insert the case into the die, ensuring it is properly aligned.
- Operate the reloading press to resize the case neck.
- Check the neck size using appropriate measuring tools after resizing.

4. Decapping:

- If decapping is required, ensure the decapping pin is properly positioned.

- Operate the press to remove the spent primer from the case.

5. PostUse Maintenance:

- Clean the die and bushing after use to remove any residues.
- Store the die and components in a protective case to prevent damage.

Disposal Instructions

- Dispose of any unused or damaged product components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the contact points provided by the manufacturer or retailer where the product was purchased.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the TYPE S BUSHING NECK DIES REDDING TYPE S BUSHING NECK DIE 338 LAPUA MAG. Always prioritize safety and compliance with local regulations during your reloading activities.
