# Safety Instruction Guide for Redding Neck Sizing Die Set 224 Weatherby Magnum

## Introduction

Thank you for choosing the Redding Neck Sizing Die Set for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this manual carefully before using the dies and keep it for future reference.

## General Safety Guidelines

- Ensure that you are familiar with the reloading process and have received proper training before using this product.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment and materials.
- Keep the workspace clean and organized to prevent accidents.
- Store the dies in a safe place, away from children and pets.
- Regularly inspect the dies for wear or damage before each use.
- Follow all local laws and regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- Do not exceed the recommended load limits for the 224 Weatherby Magnum cartridge.
- Use only components that are compatible with the Redding Neck Sizing Die Set.
- Avoid using damaged or worn tools, as they may pose a safety risk.
- Always ensure the reloading press is securely mounted and stable before use.
- Keep hands and body clear of the die and press during operation to avoid injury.
- Never leave the reloading process unattended.

## Instructions for Installation and Usage

### 1. Installation of the Neck Sizing Die:

- Remove the die from its packaging and inspect for any damage.
- Install the neck sizing die into the reloading press according to the manufacturer's instructions.
- Ensure it is tightened securely to prevent movement during operation.

### 2. Using the Neck Sizing Die:

- Insert a clean, empty case into the shell holder of the reloading press.
- Raise the ram to bring the case into contact with the die.
- Lower the ram to remove the case from the die.
- Repeat the process for each case you intend to size.

### 3. Using the Seating Die:

- Install the seating die in the same manner as the neck sizing die.
- Adjust the die according to the bullet length specifications provided by the manufacturer.
- Insert a presized case and a bullet into the shell holder.
- Raise the ram to seat the bullet into the case.
- Lower the ram to remove the completed round.

### 4. Crimping:

- If crimping is required, adjust the crimp ring on the seating die as per your desired specifications.
- Repeat the seating process to crimp the bullet securely in place.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local waste management regulations.
- Do not dispose of used primers, powder, or cartridges in regular trash. Follow local guidelines for hazardous waste disposal.
- Ensure that any damaged or unusable dies are disposed of safely to prevent injury.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the Redding Neck Sizing Die Set, please refer to the manufacturer's contact information provided on the product packaging or their official website.

## **Conclusion**

By following these safety instructions, you can ensure a safe and efficient reloading experience with your Redding Neck Sizing Die Set. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important guidelines.
