Redding Neck Sizing Die Set Safety Instructions

Introduction

Thank you for choosing the Redding Neck Sizing Die Set for your reloading needs. This guide provides important safety information and instructions to ensure the safe and effective use of your die set. Please read this guide carefully before using the product.

General Safety Guidelines

- Always read and follow the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Ensure that your workspace is clean and organized to prevent accidents.
- Wear appropriate safety gear, including eye protection and gloves, when using the die set.
- Inspect the die set for damage before each use. Do not use if any parts are damaged.
- Store the die set in a dry, cool place to prevent corrosion and deterioration.
- Be aware of the specific hazards associated with reloading ammunition, including handling of primers and powders.

Specific Safety Precautions for Use

- Ensure that the die set is compatible with your specific firearm and cartridge type (3030 Ackley Imp 40).
- Use only the recommended materials and components when reloading.
- Do not exceed the maximum load specifications provided by the powder manufacturer.
- Always doublecheck your measurements and settings before proceeding with reloading.
- Do not leave the work area unattended while reloading.
- Avoid distractions while using the die set to maintain focus and precision.

Instructions for Installation and Usage

1. Setup and Installation

- Read the product manual thoroughly before beginning.
- Gather all necessary tools and materials, including the die set, reloading press, and components (brass, primers, powder, and bullets).
- Securely mount the reloading press to a stable work surface.

2. Using the Neck Sizing Die

- Insert the neck sizing die into the reloading press.
- Adjust the die according to the instructions provided in the manual to ensure proper sizing.
- Place the brass case into the shell holder of the press.
- Operate the press to size the neck of the brass case. Repeat as necessary for all cases.

3. Using the Seating Die

- Install the seating die into the press following the instructions.
- Adjust the seating depth according to your specifications and bullet type.
- Insert a bullet into the mouth of the case.
- Operate the press to seat the bullet firmly into the case.

4. Crimping (if applicable)

- If crimping is required, ensure the die is set up correctly to apply the crimp without damaging the

- bullet or case.
- Perform crimping as per the instructions in the manual.

5. Final Inspection

- After reloading, visually inspect each round for proper assembly.
- Ensure that no cases are damaged and that the bullets are seated correctly.

Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Do not dispose of hazardous materials, such as primers and powders, in regular trash.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional support regarding your Redding Neck Sizing Die Set, please refer to the contact information provided with the product packaging.

By following these safety instructions, you can help ensure a safe and enjoyable reloading experience. Thank you for your attention to safety, and happy reloading!
