Redding Neck Sizing Die Set Safety Instructions

Introduction

Thank you for purchasing the Redding Neck Sizing Die Set for the 300 Whisper cartridge. This product is designed for safe and effective reloading of ammunition. Please read this safety instruction guide carefully to ensure proper use and to minimize risks associated with handling and operating this product.

General Safety Guidelines

- Ensure that the product is used in accordance with all local laws and regulations regarding ammunition reloading.
- Keep the dies and all related components out of reach of children and unauthorized users.
- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Inspect the dies for any signs of damage or wear before use. Do not use damaged components.
- Be aware of your surroundings and ensure a safe working environment when reloading ammunition.
- Report any unsafe products or accidents to the appropriate authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Decapping Rod Assembly:**
 - Handle with care to avoid injury. Ensure the decapping rod is properly secured before use.
- **Neck Expander Button:**
 - Use only as intended. Do not apply excessive force which may damage the die or cause injury.
- **Seating Die:**
 - Ensure the bullet guide is correctly aligned before seating bullets to avoid misfires or damage.
- **Crimp Ring:**
 - Adjust carefully to avoid overcrimping, which can lead to inconsistent ammunition performance.
- **General Handling:**
 - Always keep fingers clear of moving parts during operation.
 - Do not operate the dies while fatigued or distracted.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Insert the Neck Sizing Die into the press according to the manufacturer's instructions.
- Attach the decapping rod assembly and neck expander button securely.
- Install the Seating Die in the same manner, ensuring that the bullet guide and crimp ring are properly positioned.

2. Usage:

- Begin by preparing your brass cases according to standard reloading procedures.
- Use the Neck Sizing Die to resize the neck of the brass case. Ensure the die is set correctly to avoid oversizing.
- Insert the decapping rod assembly into the case to remove the spent primer.
- Use the Seating Die to seat the bullet. Adjust the seating plug as necessary for the desired bullet depth.
- After seating, check the crimp ring adjustment to ensure a proper crimp without damaging the bullet.

3. **PostUsage:**

- Clean the dies after use to prevent corrosion and ensure longevity.
- Store the dies in a safe, dry place away from children and unauthorized users.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local waste disposal regulations.
- Do not dispose of the dies in regular household waste. Contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or support regarding the Redding Neck Sizing Die Set, please refer to the contact information provided by your point of purchase or the manufacturer. Make sure to have your product information ready when seeking assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die Set. Always prioritize safety and compliance with local laws during the reloading process. Thank you for your attention to these important guidelines.
