Safety Instruction Guide for the Redding No. 2 Master Scale

Introduction

Thank you for choosing the Redding No. 2 Master Scale. This precision scale is designed for accurate powder weighing, ensuring safety and reliability in your reloading processes. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the scale is used in a dry and stable environment to prevent damage and ensure accurate readings.
- Always handle the scale with care, avoiding any drops or impacts that could affect its precision.
- Keep the scale out of reach of children and pets to avoid accidents or misuse.
- Regularly check for any visible damage or wear that could affect the scale's performance.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the scale on a flat, stable surface to ensure accurate measurements.
- Avoid placing heavy objects on the scale other than the designated weighing pan to prevent damage.
- Do not expose the scale to extreme temperatures, humidity, or direct sunlight.
- Ensure that the weighing pan is properly positioned and secured before use.
- Use the magnetic dampened beam as intended; do not attempt to modify or tamper with it.
- Do not overload the scale beyond its 505 grain capacity to avoid damage and ensure safety.

Instructions for Installation and Usage

1. Setting Up the Scale

- Unbox the scale and ensure all components are included: the scale, weighing pan, and any additional accessories.
- Place the scale on a flat, stable surface away from any vibrations or disturbances.
- Ensure that the scale is level; adjust the feet if necessary to achieve stability.

2. Calibrating the Scale

- Before first use and periodically thereafter, calibrate the scale according to the manufacturer's instructions.
- Use a known weight to check the accuracy of the scale and adjust if necessary.

3. Using the Scale

- Turn on the scale and allow it to warm up for a few moments.
- Place the weighing pan on the scale and tare it to zero.
- Gradually add the powder or item to be weighed, ensuring not to exceed the maximum capacity.
- Read the measurement displayed on the scale and record it as needed.

4. After Use

- Turn off the scale to conserve battery life (if applicable).

- Clean the scale gently with a soft, dry cloth to remove any residue.
- Store the scale in a safe, dry place when not in use.

Disposal Instructions

- Dispose of the scale in accordance with local regulations for electronic waste.
- Remove batteries (if applicable) and dispose of them separately at designated battery recycling points.
- Ensure that the scale is disposed of in a manner that prevents environmental contamination.

Contact Information for Further Support

For any inquiries or support regarding the Redding No. 2 Master Scale, please refer to the manufacturer's contact details provided with the product packaging or visit the manufacturer's website.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our priorities. Enjoy using your Redding No. 2 Master Scale!
