

# NT-1000 STANDARD NECK TURNING KIT, 22 CALIBER

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Neck Turning Tools](#)

Our standard neck turning tool has served thousands of handloaders for over two decades. This tool comes complete with our stainless steel universal handle and cutter. The neck turner cutter is made from hand-stoned high-speed tool steel and will cut thousands of cases before needing replacement. Each tool requires the use of our Sinclair mandrels. Our NT-1000 neck Turning Kits include the NT-1000 Neck Turner, our Generation II Expander Die (05-3000), a Neck Turning mandrel and an Expander Mandrel. Both included mandrels are turned from high grade stainless steel on precision turning centers. The Expander mandrel is sized .001 under bullet diameter and the Turning mandrels are .002 below bullet diameter. This allows for the perfect fit to avoid galling the inside of your cases during the turning process. For additional technical information regarding neck turning, please feel free to call our 800 number and speak to any of our reloading technicians.

# NT1000 STANDARD NECK TURNING KIT Safety Instruction Guide

## Introduction

Thank you for choosing the NT1000 Standard Neck Turning Kit. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual thoroughly before using the kit.

## General Safety Guidelines

- Always read and understand the product manual before use.
- Ensure that the work area is clean, welllit, and free from distractions.
- Use appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep the tool out of reach of children and unauthorized users.
- Do not use the neck turning kit for any purpose other than its intended use.
- Regularly inspect the tool for any signs of wear or damage before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the neck turning cutter is securely attached before starting the operation.
- Always use the specified Sinclair mandrels with the neck turning tool.
- Avoid overtightening the cutter, as this may lead to tool damage or malfunction.
- Do not attempt to modify or alter the tool in any way.
- When handling cut cases, be cautious of sharp edges.
- Store the neck turning kit in a dry and secure location when not in use.

## Instructions for Installation and Usage

### 1. Setup:

- Begin by selecting the appropriate Sinclair mandrel for your case.
- Attach the mandrel to the neck turning tool securely.
- Ensure that the neck turner cutter is properly installed and tightened.

### 2. Operation:

- Insert the case into the mandrel and ensure it is properly aligned.
- Rotate the handle of the neck turning tool smoothly and consistently.
- Monitor the cutting process to ensure that the cutter is functioning correctly.
- After turning, carefully remove the case from the mandrel.

### 3. Maintenance:

- Clean the tool after each use to remove any residue or debris.
- Store the neck turning kit in its original packaging or a protective case.
- Periodically check for wear on the cutter and mandrels, and replace as necessary.

## Disposal Instructions

- Dispose of any damaged or worn components according to local regulations.
- Do not dispose of tools in household waste. Check for proper recycling facilities in your area.

## Contact Information for Further Support

For any questions or concerns regarding the NT1000 Standard Neck Turning Kit, please reach out to our customer support team or refer to the product's official website for assistance.

Thank you for prioritizing safety while using the NT1000 Standard Neck Turning Kit. Your adherence to these guidelines helps ensure a safe and effective reloading experience.
