

NT-1000 STANDARD NECK TURNING KIT - SINCLAIR INTERNATIONAL NT-1000 STANDARD NECK TURNING KIT, 7MM/284 CALIBER

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Neck Turning Tools](#)

Our standard neck turning tool has served thousands of handloaders for over two decades. This tool comes complete with our stainless steel universal handle and cutter. The neck turner cutter is made from hand-stoned high-speed tool steel and will cut thousands of cases before needing replacement. Each tool requires the use of our Sinclair mandrels. Our NT-1000 neck Turning Kits include the NT-1000 Neck Turner, our Generation II Expander Die (05-3000), a Neck Turning mandrel and an Expander Mandrel. Both included mandrels are turned from high grade stainless steel on precision turning centers. The Expander mandrel is sized .001 under bullet diameter and the Turning mandrels are .002 below bullet diameter. This allows for the perfect fit to avoid galling the inside of your cases during the turning process. For additional technical information regarding neck turning, please feel free to call our 800 number and speak to any of our reloading technicians.

NT1000 Standard Neck Turning Kit Safety Instruction Guide

Introduction

Thank you for choosing the NT1000 Standard Neck Turning Kit from Sinclair International. This guide provides essential safety instructions to ensure the safe and effective use of your neck turning tool. Please read this manual thoroughly before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Always wear appropriate safety gear, including safety glasses, when using the neck turning tool.
- Keep the work area clean and welllit to prevent accidents.
- Store the tool in a dry place, away from children and pets.
- Regularly inspect the tool for any signs of wear or damage before each use.
- If you notice any defects or malfunctions, discontinue use immediately and contact support.

Specific Safety Precautions for Use

- Handle the neck turning cutter with care to avoid cuts or injuries.
- Do not exceed the recommended speed settings when using the tool.
- Ensure that the mandrels are properly secured before operation to prevent them from loosening during use.
- Do not attempt to modify or alter the tool in any way.
- Avoid wearing loose clothing or jewelry that could become entangled in the tool during use.
- If you experience any discomfort while using the tool, stop immediately and assess the situation.

Instructions for Installation and Usage

1. Unboxing the Kit

- Carefully remove the NT1000 Neck Turner and all included components from the packaging.
- Check that all parts are present: NT1000 Neck Turner, Generation II Expander Die, Neck Turning mandrel, and Expander Mandrel.

2. Setting Up the Tool

- Secure the NT1000 Neck Turner in a stable position on your workbench.
- Attach the stainless steel universal handle to the cutter as per the instructions provided in the kit.

3. Using the Neck Turner

- Select the appropriate Sinclair mandrel for your case.
- Insert the mandrel into the neck turning cutter and ensure it is locked in place.
- Adjust the cutter to the desired depth for neck turning.
- Begin turning the neck of the cases slowly, ensuring even pressure is applied throughout the process.

4. PostUse Care

- Clean the tool and mandrels after each use to remove any debris or residue.
- Store the neck turning kit in a safe location, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any worn or damaged components in accordance with local regulations.
- Do not dispose of the tool in household waste. Check for recycling programs in your area that accept metal tools.
- Ensure that all packaging materials are disposed of responsibly.

Contact Information for Further Support

For any questions or concerns regarding the NT1000 Standard Neck Turning Kit, please refer to the contact details provided with your purchase. Our customer support team is available to assist you with any inquiries related to product safety and usage.

By following these safety instructions, you can ensure a safe and effective experience with your NT1000 Standard Neck Turning Kit. Thank you for your attention to safety, and happy reloading!
