

COMPETITION SEATER DIES - REDDING 7MM-08 REMINGTON BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

We feel the Redding Competition Bullet Seater is the best bullet 7/8-14 bullet seater on the market today. The machining is precise, and the sliding chamber is the smoothest we have ever experienced in a seater. This micrometer-adjustable die is calibrated in .001" increments for precise seating depth adjustments and is infinitely adjustable (no clicks). It also has a zero set feature that allows you to zero the micrometer to your favorite seating depth. Sold separately or as part of a set. Also available for handgun and straight wall cartridges.

Safety Instruction Guide for Redding Competition Seater Dies 7mm08 Remington

Introduction

Thank you for choosing the Redding Competition Bullet Seater for your reloading needs. This guide provides important safety information and instructions to ensure safe and effective use of the product. Please read this document carefully before using the die.

General Safety Guidelines

- Always use the bullet seater in accordance with the manufacturer's instructions.
- Ensure that your workspace is clean, organized, and free of distractions while reloading.
- Wear appropriate safety gear, including safety glasses and gloves, to protect yourself from potential hazards.
- Keep the bullet seater and all reloading materials out of reach of children and unauthorized users.
- Regularly inspect the bullet seater for signs of wear or damage before each use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Handle all reloading components, including powder and primers, with care to avoid accidental ignition.
- Use only the correct caliber components specified for the Redding Competition Bullet Seater.
- Avoid overtightening the die, as this may cause damage or malfunction.
- Do not use the die for any purpose other than bullet seating.
- Ensure that the micrometer adjustment is securely set before use to prevent accidental changes during operation.
- If you experience any unusual resistance while using the die, stop immediately and inspect for obstructions or damage.

Instructions for Installation and Usage

1. Installation:

- Clean the press where the die will be installed to ensure proper fit.
- Screw the Redding Competition Bullet Seater into the reloading press, ensuring it is tightly secured.
- Adjust the die height according to your specific reloading setup.

2. Usage:

- Set the micrometer to your desired seating depth. The die is calibrated in .001" increments for precise adjustments.
- Insert the bullet into the die and ensure it is properly aligned.
- Pull the press handle to seat the bullet into the cartridge case.
- After seating, check the bullet depth using a caliper to ensure it meets your specifications.
- If necessary, adjust the micrometer and repeat the seating process until the desired depth is achieved.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of the bullet seater in regular household waste. Check with local authorities for proper disposal.

disposal methods of metal components.

- Ensure that all safety gear and protective equipment are disposed of according to safety guidelines.

By following these safety guidelines and instructions, you can ensure a safe and efficient reloading experience with your Redding Competition Bullet Seater. Thank you for choosing Redding products.
