

COMPETITION SEATER DIES - 260 REMINGTON BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

We feel the Redding Competition Bullet Seater is the best bullet 7/8-14 bullet seater on the market today. The machining is precise, and the sliding chamber is the smoothest we have ever experienced in a seater. This micrometer-adjustable die is calibrated in .001" increments for precise seating depth adjustments and is infinitely adjustable (no clicks). It also has a zero set feature that allows you to zero the micrometer to your favorite seating depth. Sold separately or as part of a set. Also available for handgun and straight wall cartridges.

Safety Instruction Guide for Redding Competition Seater Dies 260 Remington Bullet Seating Die

Introduction

Thank you for choosing the Redding Competition Bullet Seater for your reloading needs. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the die.

General Safety Guidelines

- Ensure the product is used in accordance with all local laws and regulations regarding reloading and ammunition.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the work area clean and free from distractions to prevent accidents.
- Store the die in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage. Do not use if damaged.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the die only with the specified cartridge, which is 260 Remington in this case.
- Do not exceed the recommended load specifications for the 260 Remington cartridge.
- Ensure that the micrometer is properly calibrated before use to avoid incorrect seating depth.
- Avoid using excessive force when adjusting the die to prevent damage.
- Always work in a wellventilated area to avoid inhaling any harmful substances that may be present during the reloading process.

Instructions for Installation and Usage

1. Installation of the Die:

- Secure the die in a reloading press that is compatible with 7/814 threads.
- Tighten the die securely to prevent any movement during operation.

2. Adjusting the Micrometer:

- Turn the micrometer to set your desired seating depth. The die is calibrated in .001" increments for precise adjustments.
- Use the zero set feature to establish a baseline for your preferred seating depth.

3. Seating the Bullet:

- Insert the cartridge case into the press and ensure it is properly aligned.
- Place the bullet on top of the cartridge case.
- Slowly lower the press handle to seat the bullet. Monitor the process to ensure proper seating.

4. PostUsage:

- After use, clean the die to remove any debris or residue.
- Store the die in a safe location, preferably in its original packaging or a protective case.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local waste disposal regulations.
- Do not dispose of the die in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the Redding Competition Bullet Seater, please contact the manufacturer directly. Ensure you have the product details and any relevant information ready for a prompt response.

Thank you for prioritizing safety while using the Redding Competition Bullet Seater. Your careful attention to these guidelines will help ensure a safe and enjoyable reloading experience.
