

COMPETITION SEATER DIES - 300 WSM BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

We feel the Redding Competition Bullet Seater is the best bullet 7/8-14 bullet seater on the market today. The machining is precise, and the sliding chamber is the smoothest we have ever experienced in a seater. This micrometer-adjustable die is calibrated in .001"" increments for precise seating depth adjustments and is infinitely adjustable (no clicks). It also has a zero set feature that allows you to zero the micrometer to your favorite seating depth. Sold separately or as part of a set. Also available for handgun and straight wall cartridges.

Safety Instruction Guide for COMPETITION SEATER DIES 300 WSM BULLET SEATING DIE

Introduction

Thank you for choosing the COMPETITION SEATER DIES 300 WSM BULLET SEATING DIE by Redding. This product is designed to provide exceptional precision in bullet seating for your reloading needs. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product specifications.
- Always wear appropriate safety gear, including safety glasses, when using reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the die for signs of wear or damage before use.
- Report any unsafe product conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended bullet seating depth as indicated by the manufacturer.
- Always ensure that the die is properly secured in the reloading press before use.
- Avoid using excessive force when adjusting the seating depth to prevent damage to the die or injury.
- Ensure that your workspace is clean and free from distractions while reloading.
- Follow all local regulations regarding the handling and storage of reloading components.

Instructions for Installation and Usage

1. Installation:

- Remove the die from its packaging and inspect it for any damage.
- Secure the die into the reloading press using the appropriate threads (7/814).
- Ensure that the die is tightened adequately to prevent movement during operation.

2. Usage:

- Adjust the micrometer to your desired seating depth by turning the micrometer knob.
- Use the zero set feature to calibrate the micrometer to your preferred depth.
- Place the bullet into the case mouth and position the case in the die.
- Pull the handle of the reloading press smoothly and steadily to seat the bullet.
- Check the seating depth after each adjustment to ensure precision.

Disposal Instructions

- Dispose of any unused or damaged reloading components and packaging in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs or hazardous waste disposal sites.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the manufacturer's contact information, which is available in the product packaging or on the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective reloading experience with the COMPETITION SEATER DIES 300 WSM BULLET SEATING DIE. Thank you for your attention to safety.
