Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies for your reloading needs. This guide is designed to provide you with essential safety information, usage instructions, and disposal guidelines to ensure safe and effective operation of the product. Please read this document carefully before using the product.

General Safety Guidelines

- Always handle reloading tools and materials with care.
- Ensure that you are using the product in a wellventilated area.
- Keep the product out of reach of children and unauthorized users.
- Wear appropriate safety gear, such as safety glasses and gloves, when operating reloading equipment.
- Familiarize yourself with the product and its features before use.
- Always follow the manufacturer's instructions and guidelines.
- Regularly inspect the product for any signs of wear or damage before use.

Specific Safety Precautions for Use

• Hazard Identification:

- The product is intended for use with reloading ammunition. Improper use can lead to serious injury or damage.
- Ensure that you are using the correct cartridge size (222 Remington) for this die.

• Avoiding Hazards:

- Do not exceed the recommended bulletseating depth.
- Always ensure that the Arbor Press is securely positioned before use.
- Keep hands and other body parts clear of moving parts during operation.
- Do not modify the product in any way, as this could compromise its safety and effectiveness.

• Agespecific Warnings:

- This product is intended for adult use only. Keep it away from children and individuals unfamiliar with reloading practices.

Instructions for Installation and Usage

1. Installation:

- Ensure that your Arbor Press is clean and free of debris.
- Securely attach the L.E. Wilson Micrometer Top Bullet Seater Die to the Arbor Press according to the manufacturer's instructions.
- Make sure the die is tightened properly to prevent any movement during operation.

2. Usage:

- Set the micrometer top to the desired bulletseating depth using the scale in 0.001" increments.
- Place the cartridge case in the Arbor Press and insert the bullet into the case mouth.
- Operate the Arbor Press to seat the bullet to the desired depth.

- Check the seating depth with a caliper for accuracy.
- If necessary, make adjustments to the micrometer top and repeat the process until the desired depth is achieved.

3. Testing at the Range:

- After seating your bullets, take the Press and Die to the range to test the seating depth.
- This practice can help save time and ensure your reloads are accurate.

Disposal Instructions

- Dispose of any unused or damaged reloading materials in accordance with local regulations.
- Do not throw the product in regular household waste. Instead, check for local recycling programs or hazardous waste disposal facilities.
- Ensure that all components are disposed of safely to prevent environmental harm.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please reach out to your local distributor or the manufacturer's customer service. They can provide you with the most accurate and comprehensive assistance.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the L.E. Wilson Micrometer Top Bullet Seater Dies. Always prioritize safety and proper handling of your reloading tools. Thank you for choosing our product, and happy reloading!
