[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Giving Reloaders Incredible Control

The L.E. Wilson Micrometer Top Bullet Seater Dies, as its name suggests, incorporates several features that ensure reloaders have a tool that guarantees accurate bullet-seating depths. Built with durable stainless steel Micrometer top uses scale in 0.001" increments Major adjustments made with threaded cap The L.E. Wilson Micrometer Top Bullet Seater Die, with its hardy construction and easy-to-use setup ensures that owners have one of the most accurate bullet-seating tools available today. Another advantage of Arbor Seaters, you can load your bullets long and take the Press and Die with you to the range to test seating depth, saves you multiple trips to the range! **To be used with an Arbor Press**

Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies 30 BR

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies 30 BR. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure the product is used in accordance with the manufacturer's instructions.
- Always inspect the tool for any damage or wear before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as specified in this guide.
- Report any unsafe conditions or accidents to the relevant authorities.
- Check for recall updates regularly on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while using this product.
- Ensure the workspace is clean and free from clutter to prevent accidents.
- Do not exceed the recommended bulletseating depths as specified in the product instructions.
- Avoid using the product in wet or damp conditions to prevent electrical hazards.
- Be cautious when making adjustments to the micrometer to avoid injury from sharp edges.
- Keep hands and other body parts clear of moving parts during operation.

Instructions for Installation and Usage

1. Installation:

- Ensure that you have an Arbor Press compatible with the Micrometer Top Bullet Seater Die.
- Follow the manufacturer's instructions for securing the die to the Arbor Press.
- Make sure the micrometer top is calibrated correctly before use.

2. Usage:

- Adjust the micrometer to the desired bulletseating depth using the scale in 0.001" increments.
- Insert the bullet and case into the die.
- Operate the Arbor Press smoothly and steadily to seat the bullet.
- After use, clean the die thoroughly to maintain its condition.

Disposal Instructions

- Dispose of any packaging materials responsibly and in accordance with local regulations.
- If the product is no longer in use, ensure that it is disposed of in a manner that prevents harm to the environment and complies with local waste disposal regulations.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact details

provided with your product packaging.
