# Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies

## Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies for your reloading needs. This product is designed to provide you with accurate bulletseating depths, ensuring a reliable and precise reloading experience. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always ensure that you are using the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product regularly for any signs of damage or wear before use.
- Always wear appropriate safety gear, such as safety glasses, when using this product.
- Be aware of your surroundings and ensure that your workspace is clean and organized.
- Do not use this product for any purpose other than its intended use.

## Specific Safety Precautions for Use

- Ensure that the Arbor Press is compatible with the L.E. Wilson Micrometer Top Bullet Seater Dies before use.
- Avoid overtightening the threaded cap, as this may damage the die or affect its performance.
- Always check the bulletseating depth before proceeding with a full reloading session.
- Do not attempt to modify or alter the die in any way.
- If you experience any difficulties while using the product, discontinue use and consult the manufacturer's support resources.

## Instructions for Installation and Usage

### 1. Setup:

- Ensure that your Arbor Press is securely mounted and stable.
- Attach the L.E. Wilson Micrometer Top Bullet Seater Die to the Arbor Press according to the manufacturer's instructions.

### 2. Adjustments:

- Use the micrometer top to make adjustments in 0.001" increments for precise bulletseating depth.
- Make major adjustments using the threaded cap, ensuring it is securely fastened.

### 3. Testing:

- Load a bullet into the die and test the seating depth by pressing it into the casing.
- Measure the seating depth to ensure it meets your specifications.

### 4. Range Testing:

- If desired, load your bullets long and take the Press and Die with you to the range for testing.
- This allows for adjustments to be made onsite, saving you multiple trips to the range.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for metal and plastic waste.
- Do not dispose of the product in regular household waste.
- If the product is damaged beyond repair, please contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions regarding the product or safety concerns, please refer to the manufacturer's website or contact their customer support for assistance.

Please ensure that you stay informed about any product recalls or safety alerts through the EU Safety Gate platform. Your safety is our priority, and we encourage you to report any unsafe products or accidents to the appropriate authorities.

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies. We wish you safe and successful reloading!
