Safety Instruction Guide for L.E. Wilson Micrometer Top Bullet Seater Dies

Introduction

Thank you for choosing the L.E. Wilson Micrometer Top Bullet Seater Dies for your reloading needs. This product is designed to provide precision and ease of use in bullet seating. To ensure your safety and the safety of others, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a bullet seating die.
- Always follow the manufacturer's instructions and any relevant reloading guidelines.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product regularly for any signs of wear or damage.
- If you notice any defects or malfunctions, discontinue use immediately.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses when reloading.
- Use the die only with an Arbor Press to ensure proper function and safety.
- Avoid using excessive force when adjusting the seating depth.
- Ensure that the workspace is clean and free from distractions while using the die.
- Do not attempt to modify the die in any way, as this may compromise safety and performance.
- Be aware of the potential hazards associated with handling reloading materials, including lead exposure and the risk of fire.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials including the L.E. Wilson Micrometer Top Bullet Seater Die, Arbor Press, and reloading components.
- Ensure that your workspace is welllit and organized.

2. Installation:

- Securely mount the Arbor Press on a stable surface.
- Attach the Micrometer Top Bullet Seater Die to the Arbor Press according to the manufacturer's instructions. Ensure it is tightened properly to avoid any movement during use.

3. Setting Up the Die:

- Adjust the micrometer top to the desired bulletseating depth using the scale in 0.001" increments.
- Make major adjustments using the threaded cap to ensure accuracy.

4. Reloading Process:

- Place the cartridge case in the Arbor Press and align it with the die.
- Insert the bullet into the case mouth.
- Apply even pressure on the Arbor Press handle to seat the bullet to the desired depth.

- Check the seating depth using a caliper to ensure accuracy.

5. **PostUse:**

- After reloading, clean the die to remove any residue or debris.
- Store the die in a safe, dry place when not in use.

Disposal Instructions

- Dispose of any unused or damaged reloading materials in accordance with local regulations.
- Do not throw away the die in regular trash. Check with local waste management for proper disposal methods of metal products.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the L.E. Wilson Micrometer Top Bullet Seater Dies, please refer to the manufacturer's website or contact the designated support channels provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective reloading experience with your L.E. Wilson Micrometer Top Bullet Seater Dies. Thank you for your attention to safety!
