

# NECK SIZING DIES - REDDING NECK SIZING DIE 30-284 WIN

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

## Attributes

- Name: [REDDING NECK SIZING DIE 30-284 WIN](#)
- Manufacturer: [REDDING](#)

# Safety Instruction Guide for Redding Neck Sizing Die 30284 Win

## Introduction

Thank you for choosing the Redding Neck Sizing Die for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before use to understand all safety precautions and operational guidelines.

## General Safety Guidelines

- Ensure that the workspace is clean and welllit to avoid accidents.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment.
- Keep the die and all reloading components out of reach of children and pets.
- Do not use the die for any purpose other than its intended use.
- Be aware of the specific cartridge compatibility; this die is designed for the 30284 Winchester cartridge only.
- Regularly inspect the die for any signs of damage or wear before each use.

## Specific Safety Precautions for Use

- Use the die only with the appropriate reloading press that is compatible with the die specifications.
- Ensure that the die is securely mounted to prevent movement during operation.
- Avoid forcing the die; if you encounter resistance, stop and investigate the cause.
- Do not interchange fired cases between different rifles, as neck sizing dies do not size the shoulder or body.
- Follow all manufacturer instructions for the reloading process to ensure safe operation.
- Keep your hands and other body parts clear of the die and press during operation.

## Instructions for Installation and Usage

### 1. Installation:

- Unpack the die and check for any visible damage.
- Securely mount the die onto your reloading press according to the manufacturer's instructions.
- Adjust the die to the desired depth for neck sizing.

### 2. Usage:

- Prepare your fired cases by cleaning and inspecting them for any defects.
- Insert the case into the die and ensure it is seated correctly.
- Operate the reloading press smoothly and steadily, applying even pressure.
- After sizing, remove the case from the die and inspect it for proper sizing.
- Store the die in a safe, dry place when not in use.

## Disposal Instructions

- Dispose of any damaged or wornout dies according to local regulations.
- Do not throw the die in regular household waste. Instead, check for local recycling programs for metal components.
- Ensure that any reloading materials are disposed of according to safety guidelines to prevent environmental contamination.

## **Contact Information for Further Support**

For further assistance, please refer to the manufacturer's website or customer service resources. Ensure you have your product details available for a more efficient inquiry.

By following these guidelines, you can ensure a safe and effective reloading experience with your Redding Neck Sizing Die. Always prioritize safety and compliance with local regulations during all reloading activities.
