

NECK SIZING DIES - REDDING NECK SIZING DIE 17 HORNET ACKLEY IMP

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Neck Sizing Dies size only the necks of your bottleneck cases to prolong brass life and improve accuracy. It is important that fired cases should never be interchanged between rifles since the neck sizing dies do not size the shoulder or body. Ideal for cartridges used in Bolt Action rifles. All dies are made using the finest alloy steels obtainable and machined on Hardinge Super-Precision lathes capable of holding the tightest tolerances in the industry. Heat treated in atmospherically controlled furnaces and hand polished for smooth, flawless functioning, these dies will maintain tolerances and last a lifetime. Inspected and ultrasonically cleaned before packaging.

Attributes

Safety Instruction Guide for Redding Neck Sizing Die 17 Hornet Ackley Imp

Introduction

Thank you for choosing the Redding Neck Sizing Die 17 Hornet Ackley Imp. This guide provides important safety instructions and usage information to ensure safe and effective operation of your neck sizing die. Please read this guide carefully before use.

General Safety Guidelines

- Always ensure the die is compatible with your specific rifle and cartridge.
- Inspect the die for any damage or defects before use. Do not use if damaged.
- Keep the die out of reach of children and vulnerable individuals.
- Use the die in a wellventilated area to avoid inhaling any metal particles.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Ensure that the die is securely mounted in your reloading press before use.
- Avoid wearing loose clothing or jewelry that could get caught in machinery.
- Always wear safety glasses to protect your eyes from debris.
- Do not attempt to size cases that have not been fired in your rifle.
- Never interchange fired cases between different rifles.
- Keep hands and body clear of the die during operation to avoid injury.
- Use proper reloading techniques and follow manufacturer guidelines for your equipment.

Instructions for Installation and Usage

1. Installation:

- Remove the die from its packaging and inspect for any damage.
- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Ensure the die is adjusted to the correct height for your specific cartridge.

2. Usage:

- Begin by ensuring that your press is in a stable position.
- Insert a fired case into the die and lower the press handle to size the neck.
- After sizing, carefully remove the case from the die.
- Inspect the sized case for any irregularities or defects.
- Repeat the process for additional cases as needed.
- Clean the die regularly to maintain its performance.

Disposal Instructions

- Dispose of any damaged or wornout dies according to local regulations.
- Do not dispose of any metal parts in regular trash; consult local recycling guidelines.
- Ensure that all packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's contact information provided with your product or visit their official website.

Thank you for prioritizing safety while using the Redding Neck Sizing Die. Enjoy your reloading experience!
