

SINCLAIR PRIMING TOOL - SINCLAIR INTERNATIONAL PRIMING TOOL, STAINLESS

[Reloading](#) > [Priming Tools](#) > [Priming Tool Accessories](#)

The Sinclair Priming Tool is one of the finest tools we manufacture. Handloaders around the world have told us “this is the best priming tool in the world”. The Sinclair Priming Tool is manufactured from the finest materials available. The main body, head, and punch housings are all made of stainless steel, the handle is machined from aircraft grade aluminum, and the pins and pushrod are hardened. These materials insure the owner a lifetime of trouble-free use. The Sinclair Priming Tool comes complete with housings and punches for both large and small primers. The tool head utilizes Sinclair Priming Tool Shellholders and locks the case head square to the priming punch. The leverage of the tool is outstanding, yet extremely sensitive so you can feel the primer entering the primer pocket and bottoming out. Our tool is made for single feeding of primers. Our tool is expensive but made with consideration for quality and to provide the user with a well-made tool that will last a lifetime and more. There are no plastic parts to wear or break. Shellholders purchased separately.

Sinclair Priming Tool Safety Instruction Guide

Introduction

Thank you for choosing the Sinclair Priming Tool. This guide provides important safety information to ensure safe and effective use of the tool. Please read this guide carefully before using the product.

General Safety Guidelines

- Always ensure the Sinclair Priming Tool is used in accordance with the manufacturer's instructions.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use to ensure it is in good working condition.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about safety recalls by checking the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- **Hazard Identification:**

- The Sinclair Priming Tool is designed for handloading primers. Improper use may result in injury.
- Ensure that the tool is used in a wellventilated area to avoid inhalation of any fumes.

- **Avoiding Hazards:**

- Do not modify the tool in any way, as this may compromise safety.
- Always use the correct shellholders for the tool. Shellholders are sold separately.
- Handle primers with care to prevent accidental detonation.
- Wear safety glasses to protect your eyes from any potential debris.
- Use the tool only for its intended purpose—priming cartridges.

- **Age and AudienceSpecific Warnings:**

- This tool is intended for use by individuals who are knowledgeable about reloading and handloading practices. It is not recommended for inexperienced users or children.

Instructions for Installation and Usage

- **Installation:**

1. Ensure the Sinclair Priming Tool is placed on a stable, flat surface.
2. Attach the appropriate shellholder for the primer size you will be using (large or small).
3. Insert the primer into the punch housing.

- **Usage:**

1. Position the cartridge case in the shellholder.
2. Firmly grasp the handle and apply steady pressure to prime the cartridge.
3. You will feel the primer seat into the pocket. Stop applying pressure once you feel resistance.
4. Remove the primed cartridge from the shellholder.

- **PostUse:**

- Store the Sinclair Priming Tool in a dry place, away from direct sunlight and moisture.
- Regularly clean the tool to maintain its performance.

Disposal Instructions

- Dispose of the Sinclair Priming Tool responsibly at the end of its lifecycle.
- Check local regulations for proper disposal methods of metal and aluminum products.
- Do not dispose of the tool in regular household waste.

Contact Information for Further Support

For any inquiries regarding the Sinclair Priming Tool, please consult the manufacturer's website or customer service for assistance.

Stay safe while using your Sinclair Priming Tool, and enjoy the precision and quality it brings to your handloading experience.
