

COMPETITION BUSHING NECK DIES - REDDING COMPETITION BUSHING NECK DIE 223 WSSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

Attributes

- Name: [REDDING COMPETITION BUSHING NECK DIE 223 WSSM](#)
- Manufacturer: [REDDING](#)
- Product no.: 749007679
- Mfr. No.: 56295

Safety Instruction Guide for Redding Competition Bushing Neck Die 223 WSSM

Introduction

Thank you for choosing the Redding Competition Bushing Neck Die 223 WSSM. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the following instructions carefully to avoid hazards and ensure optimal performance.

General Safety Guidelines

- Ensure that the die is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, such as safety glasses, while using reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a secure location away from children and pets.
- Regularly inspect the die for wear or damage before use.
- Do not attempt to modify or alter the die in any way.

Specific Safety Precautions for Use

- Always ensure that the cartridge case is properly supported before starting the sizing process.
- Do not exceed the recommended specifications for cartridge cases to avoid potential hazards.
- Use the die only for the intended caliber (223 WSSM) to prevent malfunction.
- Handle the decapping rod with care to maintain its precise alignment.
- Avoid distractions while using the die to remain focused on the task at hand.
- If you encounter any issues, stop using the die immediately and consult the manufacturer.

Instructions for Installation and Usage

1. Installation:

- Secure the die in the reloading press according to the manufacturer's instructions.
- Ensure the die is tightened properly to prevent movement during operation.
- Check that the micrometer adjustment is set to your desired neck length before use.

2. Usage:

- Insert the cartridge case into the sliding sleeve of the die.
- Begin the sizing process by moving the handle of the reloading press smoothly and steadily.
- Allow the resizing bushing to self-center on the case neck as you operate the press.
- After resizing, carefully remove the cartridge case from the die.
- Inspect the resized case for any signs of damage or improper sizing.

Disposal Instructions

- Dispose of any damaged or wornout parts of the die in accordance with local waste disposal regulations.
- Do not dispose of the die in regular household waste.
- Check with local authorities or recycling centers for proper disposal methods for metal products.

Contact Information for Further Support

For any questions or concerns regarding the Redding Competition Bushing Neck Die 223 WSSM, please refer to

the manufacturer's customer support resources. Always ensure that you have the product details on hand when seeking assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your Redding Competition Bushing Neck Die 223 WSM. Thank you for prioritizing safety in your reloading practices.
