

# COMPETITION SEATER DIES - REDDING 7MM BR BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

We feel the Redding Competition Bullet Seater is the best bullet 7/8-14 bullet seater on the market today. The machining is precise, and the sliding chamber is the smoothest we have ever experienced in a seater. This micrometer-adjustable die is calibrated in .001" increments for precise seating depth adjustments and is infinitely adjustable (no clicks). It also has a zero set feature that allows you to zero the micrometer to your favorite seating depth. Sold separately or as part of a set. Also available for handgun and straight wall cartridges.

# Safety Instruction Guide for Redding Competition Seater Dies 7mm BR Bullet Seating Die

## Introduction

Thank you for choosing the Redding Competition Bullet Seater for your reloading needs. This product is designed for precision and ease of use. To ensure your safety and the safe operation of this product, please read and follow the guidelines outlined in this document.

## General Safety Guidelines

- Always keep the bullet seating die out of reach of children and vulnerable individuals.
- Ensure that you are familiar with the reloading process and the specific requirements for your cartridges.
- Use the die only for its intended purpose as specified in the product description.
- Regularly inspect the die for any signs of wear or damage before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading equipment.
- Ensure that your workspace is clean, dry, and well-lit to prevent accidents.
- Do not attempt to modify or alter the die in any way, as this may compromise safety and precision.
- Avoid distractions while using the die to maintain focus on the task at hand.
- Store the die in a secure location when not in use to prevent unauthorized access.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the bullet seating die to your reloading press using the 7/814 threads.
- Make sure the die is tightened properly to avoid movement during use.

### 2. Adjusting Seating Depth:

- Use the micrometer-adjustable feature to set your desired seating depth.
- Turn the micrometer in .001" increments for precise adjustments.
- Utilize the zero set feature to return to your preferred seating depth easily.

### 3. Loading Process:

- Ensure that all components (brass, bullets, powder) are compatible with the 7mm BR cartridge.
- Follow standard reloading procedures, ensuring that you do not exceed safe load limits.
- After seating the bullet, inspect it for proper alignment and depth before proceeding.

### 4. Cleanup:

- After use, clean the die with a soft cloth to remove any debris or residue.
- Store the die in its original packaging or a protective case to prevent damage.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.

- Do not throw the die in regular trash; instead, check for recycling options available in your area.

## **Contact Information for Further Support**

For any questions, concerns, or to report unsafe products, please refer to the appropriate EU contact point or visit the EU Safety Gate platform for updates on recalls and safety information.

By adhering to these guidelines, you can ensure a safe and effective reloading experience with your Redding Competition Bullet Seater. Thank you for prioritizing safety in your reloading practices.
