

COMPETITION PRO CARBIDE DIE SETS - REDDING COMPETITION PRO CARBIDE DIE SET .460 S&W MAG

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

The Competition Pro Series, for use in progressive reloading machines, is a specially prepared three die set. Since the most popular machines do not make use of an expander die, it has been eliminated in the new "Pro Series" sets. The sizing die is the extraordinary Redding Titanium Carbide, complete with a decapping unit. A superior crimp can be accomplished if it is done in a separate operation from the bullet seating. For this reason the "Pro Series" bullet seating die is designed for bullet seating only, with no crimping feature. Our Profile Crimp die is supplied for the final crimping. For cartridges that headspace on the case mouth, a Taper Crimp die is substituted. All dies in the set have a special large radius at the mouth for easy case entry, a necessary feature for progressive machines. Kit contains a Titanium Carbide Sizing Die, Competition Seating Die with micrometer adjustments, and a crimp die.

Attributes

- Name: [REDDING COMPETITION PRO CARBIDE DIE SET .460 S&W MAG](#)

Safety Instruction Guide for Redding Competition Pro Carbide Die Sets

Introduction

Thank you for choosing the Redding Competition Pro Carbide Die Set for your reloading needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual carefully before using the die set.

General Safety Guidelines

- Ensure the die set is used only for its intended purpose as specified in the product description.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store the die set in a secure location away from children and unauthorized users.
- Regularly inspect the equipment for wear and damage. Do not use any damaged components.
- Follow local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use of the die set can lead to accidents or injury.
- Handling of reloading components can expose users to lead and other hazardous materials.

- **Instructions for Avoiding Hazards:**

- Always ensure the reloading machine is turned off and unplugged when changing dies or making adjustments.
- Avoid distractions while reloading to maintain focus and precision.
- Do not exceed the recommended load specifications for the cartridges being reloaded.
- Use the appropriate die for the specific cartridge size and type.

- **Age Specific Warnings:**

- The die set is not intended for use by individuals under the age of 18. Adult supervision is required for any use by minors.

Instructions for Installation and Usage

- **Installation:**

1. Ensure the reloading press is securely mounted and stable.
2. Select the appropriate die from the set based on the cartridge being reloaded.
3. Insert the sizing die into the press and tighten securely.
4. Follow the same procedure for the seating die and crimp die, if applicable.

- **Usage:**

1. Prepare your workspace by gathering all necessary components and tools.
2. Follow the reloading process stepbystep, ensuring each operation is performed safely.
3. Use the sizing die first to resize the brass cases.

4. Proceed with the bullet seating die to seat the bullets properly.
5. If crimping is needed, use the Profile Crimp die after seating the bullets.
6. Regularly check for proper operation and any signs of wear on the dies.

Disposal Instructions

- Dispose of any unused or damaged reloading components in accordance with local hazardous waste regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Redding Competition Pro Carbide Die Set, please refer to the contact information provided with your product or visit the manufacturer's website for additional resources.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your Redding Competition Pro Carbide Die Set. Thank you for your attention to safety and responsible reloading practices.
