

# COMPETITION PRO CARBIDE DIE SETS - COMPETITION PRO CARBIDE DIE SET 38 SPECIAL, 357 MAG

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

The Competition Pro Series, for use in progressive reloading machines, is a specially prepared three die set. Since the most popular machines do not make use of an expander die, it has been eliminated in the new "Pro Series" sets. The sizing die is the extraordinary Redding Titanium Carbide, complete with a decapping unit. A superior crimp can be accomplished if it is done in a separate operation from the bullet seating. For this reason the "Pro Series" bullet seating die is designed for bullet seating only, with no crimping feature. Our Profile Crimp die is supplied for the final crimping. For cartridges that headspace on the case mouth, a Taper Crimp die is substituted. All dies in the set have a special large radius at the mouth for easy case entry, a necessary feature for progressive machines. Kit contains a Titanium Carbide Sizing Die, Competition Seating Die with micrometer adjustments, and a crimp die.

## Attributes

- Name: [COMPETITION PRO CARBIDE DIE SET 38 SPECIAL, 357 MAG](#)
- Manufacturer: [REDDING](#)
- Product no.: 749007854
- Mfr. No.: 58282

# Safety Instruction Guide for Competition Pro Carbide Die Sets

## Introduction

Thank you for choosing the Competition Pro Carbide Die Set for your reloading needs. This guide provides essential safety instructions and general guidelines to ensure safe and effective use of the product. Please read this guide carefully before using the die set.

## General Safety Guidelines

- Ensure that the die set is used only for its intended purpose, which is reloading ammunition for firearms.
- Always handle all reloading equipment with care, as improper handling can lead to accidents.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Wear appropriate safety gear, such as safety glasses and gloves, when using the die set.
- Be aware of your surroundings and ensure that you are in a safe environment while reloading.
- Regularly inspect the die set for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading and storage.

## Specific Safety Precautions for Use

- Always ensure that the reloading machine is properly set up and secured before use.
- Use the sizing die only with compatible cartridges (357 Magnum and 38 Special).
- Avoid applying excessive force when using the dies to prevent damage or malfunction.
- Do not attempt to modify the dies or use them for any purpose other than intended.
- Keep your work area clean and organized to avoid accidents.
- Never leave the reloading process unattended. Always supervise the operation.
- If you experience any difficulties or abnormal functioning during use, stop immediately and inspect the die set.

## Instructions for Installation and Usage

### 1. Setup of the Die Set:

- Remove the die set from its packaging and inspect for any visible damage.
- Install the Titanium Carbide Sizing Die into your reloading press according to the manufacturer's instructions.
- Adjust the die to the appropriate height for your specific reloading machine.

### 2. Using the Sizing Die:

- Place the cartridge case into the reloading press.
- Raise the ram to size the case, ensuring that the die is properly aligned.
- Lower the ram and remove the sized case.

### 3. Using the Competition Seating Die:

- Install the Competition Seating Die into the press as per the instructions.
- Set the die to the desired bullet seating depth using the micrometer adjustments.
- Insert the bullet into the case mouth and raise the ram to seat the bullet.

### 4. Crimping:

- Install the Profile Crimp Die for final crimping.
- Adjust the die for the desired crimp level, ensuring it is compatible with your cartridge.

#### **5. Final Inspection:**

- After reloading, visually inspect each cartridge for defects or improper seating.
- Store the completed cartridges in a safe and secure manner.

## **Disposal Instructions**

- Dispose of any damaged or unusable components of the die set in accordance with local regulations.
- Do not throw away die sets or components in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Competition Pro Carbide Die Set, please refer to the manufacturer's website or contact their customer support team for assistance.

By following these guidelines and instructions, you can ensure a safe and effective reloading experience with the Competition Pro Carbide Die Set. Thank you for prioritizing safety in your reloading activities.
