# Safety Instruction Guide for BLACK POWDER MEASURE RCBS BLACK POWDER MEASURE

## Introduction

Thank you for choosing the BLACK POWDER MEASURE RCBS BLACK POWDER MEASURE. This product is designed for black powder and cowboy action shooters, featuring a onepound capacity aluminum hopper, a nonstatic powder level indicator, and a brass nonsparking metering cylinder. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always use the BLACK POWDER MEASURE in accordance with the manufacturer's instructions.
- Ensure that all users are familiar with the operation and safety features of the product.
- Keep this product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware of potential hazards when handling black powder. Always treat it with respect and caution.
- **NonSparking Materials:** Ensure that the metering cylinder is made of brass to avoid sparking. Do not use materials that may create sparks.
- **Proper Ventilation:** Use the BLACK POWDER MEASURE in a wellventilated area to minimize the risk of inhaling harmful fumes.
- **No Open Flames:** Keep the BLACK POWDER MEASURE away from open flames or heat sources to prevent ignition of black powder.
- **Avoid Static Electricity:** Take precautions to avoid static electricity, which can ignite fine powders. Use antistatic measures when handling.
- **Personal Protective Equipment (PPE):** Wear appropriate PPE, such as safety glasses and gloves, when using the product to protect against accidental spills.

## Instructions for Installation and Usage

### 1. Installation:

- Place the BLACK POWDER MEASURE on a stable, flat surface.
- Ensure that the area is free from clutter and flammable materials.
- Make sure the aluminum hopper is securely attached to prevent spills.

### 2. Usage:

- Open the cap of the aluminum hopper and fill it with black powder up to the onepound capacity.
- Use the nonstatic powder level indicator to check the amount of powder remaining.
- Adjust the metering cylinder using the adjustment screw to set the desired grain charge (up to 120 grains).
- Always doublecheck the setting before dispensing powder.
- After use, empty the hopper if storing for an extended period.

## **Disposal Instructions**

- Dispose of any unused or expired black powder in accordance with local regulations.
- Do not dispose of black powder in regular household waste.
- Contact local waste disposal authorities for guidance on safe disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or product support, please reach out to your local distributor or consult the manufacturer's website for additional resources.

By following these guidelines, you can ensure safe and effective use of the BLACK POWDER MEASURE RCBS BLACK POWDER MEASURE. Thank you for prioritizing safety in your shooting activities.
