

COMPETITION BUSHING NECK DIES - REDDING COMPETITION BUSHING NECK DIE 7MM TCU

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

Attributes

- Name: [REDDING COMPETITION BUSHING NECK DIE 7MM TCU](#)

Safety Instruction Guide for Redding Competition Bushing Neck Die 7mm TCU

Introduction

Thank you for choosing the Redding Competition Bushing Neck Die 7mm TCU. This product is designed for precision reloading and is intended for use by competition shooters. Please read this safety instruction guide thoroughly to ensure safe and effective use of the die.

General Safety Guidelines

- Always ensure the die is used in accordance with the manufacturer's instructions.
- Keep the die out of reach of children and vulnerable individuals.
- Regularly inspect the die for wear and damage before each use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the die is securely mounted in your reloading press before use.
- Do not attempt to resize cases that are not compatible with the die specifications.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Avoid using excessive force during the resizing process to prevent damage to the die or cases.
- Be cautious of sharp edges on the die and components; handle with care to avoid injury.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is clean and free of debris.
- Securely mount the Redding Competition Bushing Neck Die in the press according to the manufacturer's instructions.
- Check that the sizing bushing is properly installed and aligned.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for any defects.
- Insert a cartridge case into the die's sliding sleeve.
- Slowly raise the ram of the press to begin the resizing process. Monitor the alignment of the case and bushing.
- Adjust the micrometer to achieve the desired neck length.
- After resizing, remove the case and inspect it for proper sizing and any signs of damage.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Instead, check for local recycling programs that accept metal components.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Redding Competition Bushing Neck Die 7mm TCU,

please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure a safe and effective reloading experience with your Redding Competition Bushing Neck Die. Thank you for prioritizing safety in your reloading activities.
