

# 3BR MATCH-GRADE POWDER MEASURE - 3BR POWDER MEASURE W/PISTOL INSERT

[Reloading](#) > [Powder Handling](#) > [Powder Measures & Dispensers](#)

The Match-Grade Model 3BR was created to be the ultimate powder measure... "out of the box" match ready! Since its creation this powder measure has been helping Silhouette shooters and Benchrest Shooters win matches and set new records. It all started with the time proven accuracy and reliability of the original Model 3 Powder Measure. The Model 3BR Powder Measure utilizes all of the features of the original Model 3 and to that Redding added the conversion features that Benchrest shooters were looking for. It quickly became their most popular powder measure for two very good reasons... Its broad range of charging capacity and its performance record. Additional Metering Chambers are available. Hangun Metering Chamber has a charge range of 0 to 10 grains. Rifle or Universal Metering Chamber has a charge range of 5 to 100 grains.

# Safety Instruction Guide for 3BR MatchGrade Powder Measure

## Introduction

Thank you for choosing the 3BR MatchGrade Powder Measure. This product has been designed for precision and reliability, making it an excellent choice for Silhouette and Benchrest shooters. To ensure your safety and the proper use of this powder measure, please read the following safety instructions carefully.

## General Safety Guidelines

- Always follow the manufacturer's instructions when using the powder measure.
- Ensure the powder measure is used in a wellventilated area to avoid inhalation of powder particles.
- Keep the powder measure out of reach of children and vulnerable individuals.
- Regularly inspect the powder measure for any signs of damage or wear.
- Use only the recommended metering chambers for your specific needs.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- Risk of fire or explosion if flammable materials come into contact with the powder.
- Risk of inhalation of powder particles.
- Risk of injury from improper handling or operation of the powder measure.

- **Avoiding Hazards:**

- Always store powder in accordance with local regulations and safety guidelines.
- Do not use the powder measure near open flames or sources of ignition.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and a dust mask, when operating the powder measure.
- Ensure the powder measure is placed on a stable, flat surface to prevent tipping or spilling.

## Instructions for Installation and Usage

- **Installation:**

- Ensure the work area is clean and free from clutter.
- Securely attach the powder measure to a stable surface using the provided mounting hardware.
- Select the appropriate metering chamber for your application (Handgun or Rifle/Universal).

- **Usage:**

- Before use, calibrate the powder measure according to the manufacturer's instructions.
- Load the powder into the measure carefully, avoiding spillage.
- Adjust the charge weight according to your specifications.
- Always doublecheck the charge weight before transferring it to your reloading equipment.
- After use, clean the powder measure thoroughly to prevent crosscontamination of powders.

## **Disposal Instructions**

- Dispose of any leftover powder in accordance with local regulations.
- Do not dispose of powders in regular trash; check for hazardous waste disposal options in your area.
- Dispose of packaging materials responsibly, recycling where possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the 3BR MatchGrade Powder Measure, please refer to the manufacturer's website or customer service for assistance.

Thank you for your attention to these safety guidelines. Enjoy your reloading experience with the 3BR MatchGrade Powder Measure!
