

# TYPE S MATCH BUSHING FULL DIE SETS - REDDING 22 BR BUSHING FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Type S Match Bushing Full Die Set contains a Type S Bushing Full Sizing Die and a Competition Seating Die. The Type S Bushing Full Die allows full length resizing while maintaining exact control of the case neck.

Interchangeable bushings allow you to determine your own level of sizing and neck tension. The Competition Bullet Seating Die features a micrometer calibrated in .001" increments and floating seating stem system which help eliminate concentricity problems.

# **Safety Instruction Guide for Redding Type S Match Bushing Full Die Sets**

## **Introduction**

Thank you for choosing the Redding Type S Match Bushing Full Die Set. This product is designed for precision reloading of the 22 BR (Benchrest) Remington cartridge. To ensure your safety and the safety of others, please read and follow these safety instructions carefully.

## **General Safety Guidelines**

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, such as safety glasses and hearing protection, when reloading ammunition.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die set for any signs of wear or damage before use.
- Store the die set in a safe, dry location when not in use.
- Report any unsafe conditions or accidents to the appropriate authorities.

## **Specific Safety Precautions for Use**

- Use only the recommended cartridge type (22 BR) with this die set.
- Ensure that the bushing is properly installed and secured before resizing cases.
- Do not exceed the recommended neck tension settings, as this may affect accuracy and safety.
- Always check the alignment of the die with the press before operation to prevent misalignment.
- Avoid using excessive force when resizing cases, which could lead to equipment failure or personal injury.
- Follow all manufacturer guidelines for the specific reloading components you are using in conjunction with this die set.

## **Instructions for Installation and Usage**

### **1. Installation**

- Carefully unpack the die set and inspect for any damage.
- Select the appropriate bushing for your desired neck tension.
- Install the Type S Bushing Full Sizing Die into your reloading press according to the press manufacturer's instructions.
- Ensure that the die is tightened securely in the press.

### **2. Usage**

- Adjust the die to the desired position for fulllength resizing.
- Insert a case into the shell holder of the press.
- Operate the press to resize the case, ensuring smooth movement without excessive force.
- After resizing, check the neck tension using a bullet to ensure proper fit.
- For bullet seating, install the Competition Bullet Seating Die into the press.
- Adjust the micrometer to the desired bullet seating depth, ensuring precision in increments of .001".
- Use the floating seating stem system to achieve optimal concentricity when seating bullets.

## Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Recycle packaging materials whenever possible.
- Ensure that all hazardous materials are disposed of safely and responsibly.

## Contact Information for Further Support

For any questions or concerns regarding the Redding Type S Match Bushing Full Die Set, please consult the product manual or contact the manufacturer's customer service team. Ensure that you have the product details and any relevant information ready to assist with your inquiry.

By following these safety instructions, you can help ensure a safe and effective reloading experience. Always prioritize safety and consult experts if you are unsure about any aspect of using this die set. Thank you for your attention to these important guidelines.
