

TYPE S MATCH BUSHING FULL DIE SETS - REDDING 223 ACKLEY IMPROVED BUSHING FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Type S Match Bushing Full Die Set contains a Type S Bushing Full Sizing Die and a Competition Seating Die. The Type S Bushing Full Die allows full length resizing while maintaining exact control of the case neck. Interchangeable bushings allow you to determine your own level of sizing and neck tension. The Competition Bullet Seating Die features a micrometer calibrated in .001" increments and floating seating stem system which help eliminate concentricity problems.

Safety Instruction Guide for Redding Type S Match Bushing Full Die Sets

Introduction

Thank you for choosing the Redding Type S Match Bushing Full Die Set. This product is designed for precision reloading of the .223 Ackley Improved cartridge. To ensure safe and effective use, please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the die set is used only for its intended purpose—reloading ammunition for firearms.
- Always store the die set in a safe and dry place, away from children and unauthorized users.
- Regularly inspect the die set for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding ammunition reloading and storage.
- Use personal protective equipment, such as safety glasses and gloves, when handling reloading components.

Specific Safety Precautions for Use

- Read the reloading manual specific to the .223 Ackley Improved cartridge before beginning the reloading process.
- Only use components (brass, powder, primers, and bullets) that are compatible with the .223 Ackley Improved cartridge.
- Avoid overloading cartridges beyond the recommended specifications to prevent firearm malfunctions or accidents.
- Ensure that your workspace is wellventilated and free of distractions while reloading.
- Keep all reloading materials, including powders and primers, stored safely and securely to prevent accidental ignition.

Instructions for Installation and Usage

1. Setup:

- Secure the die set into your reloading press according to the manufacturer's instructions.
- Ensure that the press is stable and mounted on a solid workbench.

2. Adjusting the Bushing Die:

- Select the appropriate bushing for your desired neck tension and insert it into the sizing die.
- Adjust the die to achieve the correct fulllength resizing of the cartridge case.

3. Using the Competition Seating Die:

- Place the bullet into the cartridge case.
- Use the micrometer to adjust the seating depth according to your specifications.
- Ensure that the floating seating stem is functioning correctly to maintain concentricity during the seating process.

4. Final Inspection:

- After reloading, visually inspect each cartridge for any defects or irregularities.
- Measure the overall length and neck tension to ensure they meet your specifications.

Disposal Instructions

- Dispose of any unused or outdated reloading components in accordance with local hazardous waste regulations.
- Do not throw away used primers or powder in regular trash. Follow local guidelines for safe disposal.

Contact Information for Further Support

For any questions or concerns regarding the use of the Redding Type S Match Bushing Full Die Set, please refer to the manufacturer's contact information found in the product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience. Always prioritize safety and compliance with regulations to protect yourself and others. Thank you for choosing Redding for your reloading needs.
