

# TYPE S MATCH BUSHING FULL DIE SETS - 6MM XC BUSHING FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The Redding Type S Match Bushing Full Die Set contains a Type S Bushing Full Sizing Die and a Competition Seating Die. The Type S Bushing Full Die allows full length resizing while maintaining exact control of the case neck. Interchangeable bushings allow you to determine your own level of sizing and neck tension. The Competition Bullet Seating Die features a micrometer calibrated in .001" increments and floating seating stem system which help eliminate concentricity problems.

# Safety Instruction Guide for TYPE S MATCH BUSHING FULL DIE SETS 6MM XC BUSHING FULL LENGTH DIE SET

## Introduction

Thank you for choosing the Redding Type S Match Bushing Full Die Set. This guide provides important safety information, usage instructions, and disposal guidelines to ensure your safety and the effective use of this product. Please read this document carefully before use.

## General Safety Guidelines

- Ensure the die set is used only for its intended purpose: resizing and seating bullets for 6 mm XC cartridges.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using reloading equipment.
- Keep the die set and all related tools out of reach of children and vulnerable individuals.
- Do not modify the die set in any way, as this may compromise safety and performance.
- Regularly inspect the die set for any signs of damage or wear. If damaged, do not use and contact a qualified technician for assessment.

## Specific Safety Precautions for Use

- Follow all manufacturer instructions for the setup and operation of the die set.
- Use the correct bushing size for your specific needs to maintain proper neck tension.
- Ensure that the work area is wellventilated to avoid inhaling any dust or debris generated during the reloading process.
- Keep your hands and other body parts clear of moving parts when operating the die set.
- Be aware of the potential risks associated with handling ammunition components, including lead exposure and the risk of accidental discharge.

## Instructions for Installation and Usage

### 1. Setup:

- Unpack the die set and inspect all components for damage.
- Select the appropriate bushing based on your resizing needs and install it into the sizing die.

### 2. Resizing:

- Insert a clean, empty 6 mm XC cartridge case into the die.
- Adjust the die to achieve the desired sizing and neck tension using the interchangeable bushings.
- Operate the press smoothly and steadily, avoiding sudden movements.

### 3. Bullet Seating:

- Place a bullet into the cartridge case and insert it into the seating die.
- Use the micrometer to adjust the seating depth in .001" increments for precise bullet placement.
- Ensure the floating seating stem is properly aligned to eliminate concentricity issues.

### 4. Final Checks:

- After reloading, visually inspect each cartridge for proper seating and overall integrity.
- Store completed cartridges in a safe and secure manner, away from heat sources and direct sunlight.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact local waste management authorities for guidance on the safe disposal of hazardous materials.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please refer to the contact information provided on the packaging or the manufacturer's website.

Thank you for prioritizing safety while using the Redding Type S Match Bushing Full Die Set. Your careful attention to these guidelines helps ensure a safe and enjoyable reloading experience.
