# Safety Instruction Guide for TYPE S MATCH BUSHING NECK DIE SETS

## Introduction

Thank you for choosing the TYPE S MATCH BUSHING NECK DIE SET 7MM TCU by Redding. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this document carefully before using the die set.

## General Safety Guidelines

- Ensure that you are familiar with the basic operation and handling of reloading equipment before using this product.
- Always wear safety glasses and appropriate personal protective equipment (PPE) when operating reloading equipment.
- Keep the die set and all reloading components out of reach of children and unauthorized persons.
- Do not use the die set for any purpose other than intended, which is to resize and seat bullets for the 7 mm TCU cartridge.
- Regularly inspect the die set for any signs of damage or wear. If any parts are damaged, discontinue use immediately and replace them.
- Follow all local laws and regulations regarding ammunition reloading and handling.

## Specific Safety Precautions for Use

- Before starting the reloading process, ensure that your workspace is wellventilated and free from any flammable materials.
- Always doublecheck the specifications of the cartridge you are working with. Using incorrect dimensions can lead to dangerous situations.
- Use proper tools to handle components and avoid using excessive force that could damage the die set.
- Do not exceed the recommended load limits for the 7 mm TCU cartridge as specified in reliable reloading manuals.
- If you are inexperienced in reloading, seek guidance from a knowledgeable individual or attend a reloading workshop.

## Instructions for Installation and Usage

### 1. Unpacking the Die Set

- Carefully remove the die set from its packaging.
- Inspect all components for any visible damage or defects.

### 2. Setting Up the Die Set

- Place the sizing die in the reloading press and secure it according to the press manufacturer's instructions.
- Adjust the die to ensure proper alignment with the shell holder. Follow the specific instructions provided with your reloading press.

### 3. Using the Bushing Neck Sizing Die

- Insert the appropriate bushing for the desired neck tension into the sizing die.
- Lubricate the case necks lightly with a suitable case lube before resizing.
- Insert the case into the shell holder and operate the press to resize the case.

#### 4. Using the Body Die

- After resizing, switch to the body die if necessary for fulllength sizing.
- Follow the same procedure as with the sizing die, ensuring proper lubrication and alignment.

#### 5. Using the Competition Seating Die

- Set the seating die in the press and adjust it according to the bullet length specifications.
- Insert the bullet into the case mouth and operate the press to seat the bullet to the desired depth.

#### 6. Cleaning the Die Set

- After use, clean the die set to remove any residue or lubricant.
- Store the die set in a dry place to prevent rust and corrosion.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the die set is damaged beyond use, contact local recycling centers to determine the proper disposal methods for metal and plastic materials.

## Contact Information for Further Support

For any questions or concerns regarding the usage or safety of the TYPE S MATCH BUSHING NECK DIE SET, please refer to the manufacturer's support resources or contact your local retailer for assistance.

## Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the TYPE S MATCH BUSHING NECK DIE SET 7MM TCU. Always prioritize safety and compliance with local regulations while reloading ammunition. Thank you for your attention to these important safety measures.
