

SINCLAIR COMPETITION SHOOTING REST - SINCLAIR INTERNATIONAL ALL-PURPOSE COMPETITION SHOOTING REST

[Shooting Accessories](#) > [Shooting Rests](#) > [Rifle Rests](#)

The Sinclair Competition Shooting Rest is a result of our staff and our customer's years of shooting experience on the firing line, and in the field. We've incorporated the best design ideas, materials, and craftsmanship to present you with a shooting platform that rivals any windage rest available today. Whether you're competing in a benchrest discipline, F-Class, or wringing the most accuracy from your favorite shooting rig, the Sinclair Competition Rest offers the most versatile fit, function, and features in one complete package. NOTE: You will need to order a front bag in addition to the rest. We recommend the Protector Leather/Cordura or the Edgewood Standard Front Bags. Heavy and Compact The Sinclair Competition Rest's foundation begins with a one inch, solid steel base plate with a durable granite powder coat finish. This enables us to achieve a massive unit - over 30 pounds - with the lowest center of gravity, combined with a footprint that's no larger than other tripod rests currently on the market. It's nearly twice as heavy as our closest competitor. Mobile Most shooting rests by design, are awkward and difficult to manage and maneuver. We solved this by machining a carry handle into the base plate for easy transport, making the Sinclair Competition Rest one of the most mobile units available, in spite of its enormous weight. No tacky looking handles or impossible two-arm lift methods are needed. Effortless Operation The Sinclair Competition Rest has the windage operation built directly into the base plate. It incorporates dual sets of twin tapered roller bearings for an effortless, non-binding windage operation. The oversized windage control knob is positioned near the rear speed screw where simultaneous one-handed adjustment is easily achievable. Nearly four feet of windage adjustment is offered at 100 yards - enough for any bench shooting discipline. The oversized, fluted handwheel also offers smooth vertical adjustment with the aid of a thrust bearing. A non-windage-adjustable model is available for shooters who prefer to adjust windage off the rear bag or do not have a need for the windage adjustable base block. Ambidextrous Design The unique construction of this windage unit platform enables an entirely ambidextrous set-up for right or left handed shooters. The post, center column, controls and windage adjustment disassemble and reassemble on the opposite side, for a completely mirrored, left hand use. Hardware for Hard Wear The Sinclair Competition Rest includes upgraded hardware: a beefed up center column (1.95" up from 1.375"); threaded post (1" diameter up from 3/4"); leg screws (1/2" diameter up from 3/8"); and large diameter fluted speed screw - all made from high grade stainless steel to withstand a lifetime of abuse. All knob controls and handwheel are machined from aluminum then anodized or powder coated to provide a durable grip surface for all adjustments. Topping Perfection The Sinclair Competition Rest is completed with our Benchrest Top with new lockable forend stop assembly. Our Benchrest Top accepts both Edgewood and Protektor front bags in sporter, varmint, and benchrest configurations. The new lockable forend stop unit is adjustable for length (fore-aft), height, and cant. Our benchrest top is both NBRSA and IBS approved for competition shooting. The Sinclair Competition Rest is also available with our All-Purpose Top which features our updated Sinclair designed Edgewood Bag, easy adjust lockable bag ears and new forend stop. This top is an excellent choice for all Rimfire Benchrest competitions, particularly Sporter Rifle Class, as well as those wishing to attain

the highest level of accuracy from all of their rifles. Accessories The Sinclair Competition Rest includes mounting holes for aftermarket accessories you may wish to entertain. Such as our Port Level Ammo Block which enables the shooter to adjust their tray of 20 rounds of PPC or BR wherever needed. Move it close to your rifle port for fast shooting.

Attributes

- Name: [SINCLAIR INTERNATIONAL ALL-PURPOSE COMPETITION SHOOTING REST](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749008509
- Mfr. No.: 1041100
- Material: Steel

Sinclair Competition Shooting Rest Safety Instruction Guide

Introduction

Thank you for choosing the Sinclair Competition Shooting Rest. This guide provides essential safety instructions and information to ensure the safe and effective use of your product. Please read this guide carefully before using the shooting rest.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the Sinclair Competition Shooting Rest by following all instructions and precautions outlined in this guide.
- **Enhanced Recalls:** Stay informed about any product recalls. If you receive a recall notice, follow the instructions provided to ensure your safety.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements as mandated by EU regulations.
- **Special Consumer Focus:** Be particularly cautious if the product is used by children or inexperienced users. Adult supervision is recommended.
- **EU Contact Point:** For any safety inquiries, ensure you have access to an EU-based contact.
- **Rapid Alerts:** Regularly check the EU's Safety Gate platform for updates on any unsafe products.

Specific Safety Precautions for Use

- **Weight Consideration:** The Sinclair Competition Shooting Rest weighs over 30 pounds. Use caution when lifting or moving the rest to avoid injury.
- **Stable Surface:** Always use the shooting rest on a stable and level surface to prevent tipping or instability during use.
- **Proper Setup:** Ensure that all components are securely attached and properly adjusted before use to avoid accidents.
- **Ambidextrous Use:** The design allows for ambidextrous setup. Ensure that all adjustments are made correctly for the user's dominant hand.
- **Avoid Overloading:** Do not exceed the recommended weight limit for accessories or equipment placed on the shooting rest.
- **Check for Damage:** Regularly inspect the shooting rest for any signs of wear or damage. Do not use if any parts are damaged or missing.

Instructions for Installation and Usage

1. **Unpacking:** Carefully unpack the Sinclair Competition Shooting Rest from its packaging. Check for all components as listed in the product specifications.
2. **Assembly:**
 - Attach the center column to the base plate securely.
 - If using the Benchrest Top or AllPurpose Top, follow the specific assembly instructions for those components.
3. **Adjusting Height:**
 - Use the height adjustment feature to set the rest between 5 inches to 10 inches as needed.
4. **Windage Adjustment:**
 - Utilize the oversized windage control knob for adjustments. Ensure it is functioning smoothly before shooting.
5. **Setting Up for Use:**
 - Place the shooting rest on a flat surface.
 - Adjust the legs to ensure stability.

- Secure the front bag (Protector Leather/Cordura or Edgewood Standard) as needed.
- 6. **Using the Shooting Rest:**
 - Position your rifle on the rest, ensuring it is stable.
 - Make any necessary adjustments to the windage and height for optimal shooting alignment.
- 7. **PostUse Care:**
 - After use, disassemble any components if necessary and store the shooting rest in a safe, dry place.

Disposal Instructions

- **Environmental Responsibility:** Dispose of the Sinclair Competition Shooting Rest and any packaging materials in accordance with local regulations.
- **Recycling:** Where possible, recycle materials such as metal and cardboard to reduce environmental impact.
- **Hazardous Materials:** If any components contain hazardous materials, follow specific disposal guidelines provided by local authorities.

Contact Information for Further Support

For any questions or concerns regarding the Sinclair Competition Shooting Rest, please refer to your point of purchase or consult the manufacturer's website for additional resources and support.

By following these safety instructions, you can ensure a safe and enjoyable experience with the Sinclair Competition Shooting Rest. Always prioritize safety and proper handling practices when using this product.
