

WILSON NECK REAMER - L.E. WILSON 22 CALIBER (0.2255"-0.226") INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Thick necks can cause high chamber pressures and erratic shooting. Wilson neck reamers remove excess neck material to insure adequate clearance exists between the case neck and the chamber. Also, these reamers can be used when forming wildcats from a parent case. Reamers are used in the Wilson trimmer in place of the trimmer cutter. Standard reamers are sized for use on fired, unsized cases and measure .0025" - .003" larger than bullet diameter. Custom size reamers can be ground (allow 6-8 week delivery).

Wilson Neck Reamer Safety Instructions

Introduction

Thank you for choosing the Wilson Neck Reamer L.E. Wilson 22 Caliber (0.2255"0.226"). This product is designed to help you achieve precise neck dimensions for your cases, ensuring optimal performance. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the neck reamer is used only by individuals who are knowledgeable in reloading and firearms.
- Always handle the reamer with care to prevent injury.
- Keep the reamer out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the reamer before use.
- Follow all local laws and regulations regarding firearms and ammunition.

Specific Safety Precautions for Use

- Always wear safety glasses when using the neck reamer to protect your eyes from debris.
- Use the reamer in a wellventilated area to avoid inhaling any dust or particles.
- Avoid using excessive force while reaming to prevent damage to the reamer and ensure safety.
- Never attempt to modify the reamer or use it for purposes other than intended.
- Ensure that the reamer is securely attached to the trimmer before use.

Instructions for Installation and Usage

1. Installation:

- Ensure the Wilson trimmer is unplugged and clean before installation.
- Remove the trimmer cutter from the trimmer.
- Insert the neck reamer into the trimmer's tool holder, ensuring it is securely fitted.
- Tighten the tool holder screw to hold the reamer in place.

2. Usage:

- Prepare the fired, unsized case by cleaning it thoroughly.
- Insert the case into the trimmer.
- Activate the trimmer according to the manufacturer's instructions.
- Slowly and steadily feed the case into the reamer until the desired neck dimension is achieved.
- After use, turn off the trimmer and carefully remove the reamed case.

Disposal Instructions

- Dispose of any excess neck material and debris according to local regulations.
- Do not dispose of the reamer in regular household waste. Check with local recycling centers for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Wilson Neck Reamer, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure safe and effective use of your Wilson Neck Reamer. Regularly check for updates on safety and recall information through the EU's Safety Gate platform. Thank you for your attention to safety.
